INQUIRIES

Visitors

The College encourages prospective students and their parents to visit the campus; other visitors are also welcome. The center for visitors is the Admissions Office at 130 Beacon Street. During the academic year, student guides conduct visitors on tours of the campus.

Visitors from outside the College are welcome to attend classes with the permission of the instructor or of the Registrar. Any student may occasionally visit a class in which he is not enrolled with the permission of the instructor or of the Registrar.

HISTORY

The Boston Conservatory of Oratory

In 1880, Charles Wesley Emerson opened the Boston Conservatory of Oratory at 13 Pemberton Square with one instructor and six students. Incorporated in 1886 as the Monroe College of of Oratory, it was renamed in 1890 by authority of the Common-

wealth of Massachusetts as Emerson College of Oratory. During Dr. Emerson's presidency the College had on its faculty such men as Edward Everett Hale, author and lecturer, and William J. Rolfe, distinguished Shakespearean scholar. In 1900, Dr. Emerson transferred the administration of the College to Henry Lawrence Southwick, Jessie Eldridge Southwick, and William Howland Kenney. Mr. Rolfe was president from 1903 to 1908 and was succeeded by Dr. Southwick, who held office from 1908 until 1932. From 1932 until 1945, Harry Seymour Ross served as president. Dr. Boylston Green, Dr. Godfrey Dewey, Mr. Jonathan Wales French, Jr., and Dr. S. Justus McKinley served successively as presidents until Richard Chapin became president, in 1967.

Until 1908, the curriculum consisted almost entirely of courses in speech, with diplomas granted upon the completion of two and three years in residence. In 1908, the College began the establishment of a collegiate course; in 1913, the administration introduced the first four-year courses and adopted college standards for admission and graduation. The Commonwealth of Massachusetts then granted permission to the Emerson College of Oratory to confer the degree of Bachelor of Literary Interpretation.

In 1930, the proprietors of Emerson College of Oratory transferred the control of the College to a non-profit corporation, with an elected board of trustees. Subsequently, the Commonwealth of Massachusetts authorized these changes: 1936, the degree Bachelor of Arts; 1939, the elimination of the words "of Oratory" from the name; 1941, the degree Master of Arts; 1955, the degrees Bachelor of Science in Speech, Master of Science in Speech, and certain honorary degrees; in 1958, the degree Bachelor of Music, in conjunction with the Longy School of Music in Cambridge; and 1972, the degrees of Bachelor of Science and Bachelor of Fine Arts.

In 1967, the College began an extensive evaluation of its curriculum. As a result, a new curriculum composed of two levels and a new academic calendar were developed and adopted. The new calendar and the First Level of the new curriculum were initiated in 1970.

Accreditation

In 1950, the New England Association of Schools and Colleges, regional accrediting agency for New England, admitted Emerson College to membership as a specialized institution.

ALUMNI AND COLLEGE-AFFILIATED ORGANIZATIONS

The Alumni/ Development

The Alumni/Development Office acts as a resource and coordinating center for all alumni. The Alumni Relations staff is responsible for arranging alumni events such as club functions and class reunions.

The Development staff raises funds for the College from outside sources such as government agencies and foundations; and, with the support of the Alumni Relations staff, it coordinates the annual Alumni Fund and the appeal to parents and friends of the College.

In addition, the Alumni/Development Office staffs maintain the history and artifact collection for the College, the permanent alumni files, and the computer address system.

Alumni Association

The Emerson College Alumni Association encourages alumni support by helping them become aware of the progress and needs of the College; and it assists them in interpreting Emerson, its purpose and direction, to non-alumni. Anyone who has attended Emerson College for one term is a member of the Alumni Association. Membership is free. All members receive the Emerson alumni magazine, *Beacon*, and the *Emerson College Bulletin*, published bi-monthly during the academic year. The services of the Alumni/Development and Placement offices are available to association members.

The Alumni Council

The activities of the Association are directed by the council, which is governed by six elected officers and twelve elected members-at-large. It includes class agents and fund representatives of each graduating class and a representative from each alumni club. The Alumni Council meets four times a year and holds its annual meetings and elections during commencement weekend. Members of the Alumni Association act through the council to nominate candidates for the Board of Trustees.

Alumni Clubs

Alumni Clubs provide a meeting ground for alumni away from the College; through them alumni maintain ties with the College and are encouraged to use their Emerson talents for local community service projects.

The alumni clubs strengthen their relationships with the College through correspondence, through association representatives, and through club functions to which members of the Emerson faculty, administration, and student body are invited. Emerson Alumni Clubs are located in Boston, New Haven, Hartford, New York, Philadelphia, Providence, and Washington, D.C. Please address questions about the clubs to the Alumni/Development Office.

Parents Council

The Emerson College Parents Council seeks meaningful involvement of the parents in the life of the college and acts as a liaison between the College and the parents of students. In addition to conducting an annual appeal for funds, the council sponsors special events for parents and students.

Aid to Speech Therapy

An organization of women vitally interested in helping the speech and hearing handicapped, this group has worked for the advancement of the Robbins Speech and Hearing Center and the Thayer Lindsley Nursery School for Pre-School Deaf Children at Emerson.

Robbins Institute for Speech Correction, Incorporated

The Institute was founded in Toronto, Canada, in 1867, and, since 1883, has been located in Boston. It carries on its work with speech handicapped through the faculty and facilities of the Robbins Speech and Hearing Center. From endowed funds, the trustees provide grants to the center and financial assistance to those unable to pay for clinical services.

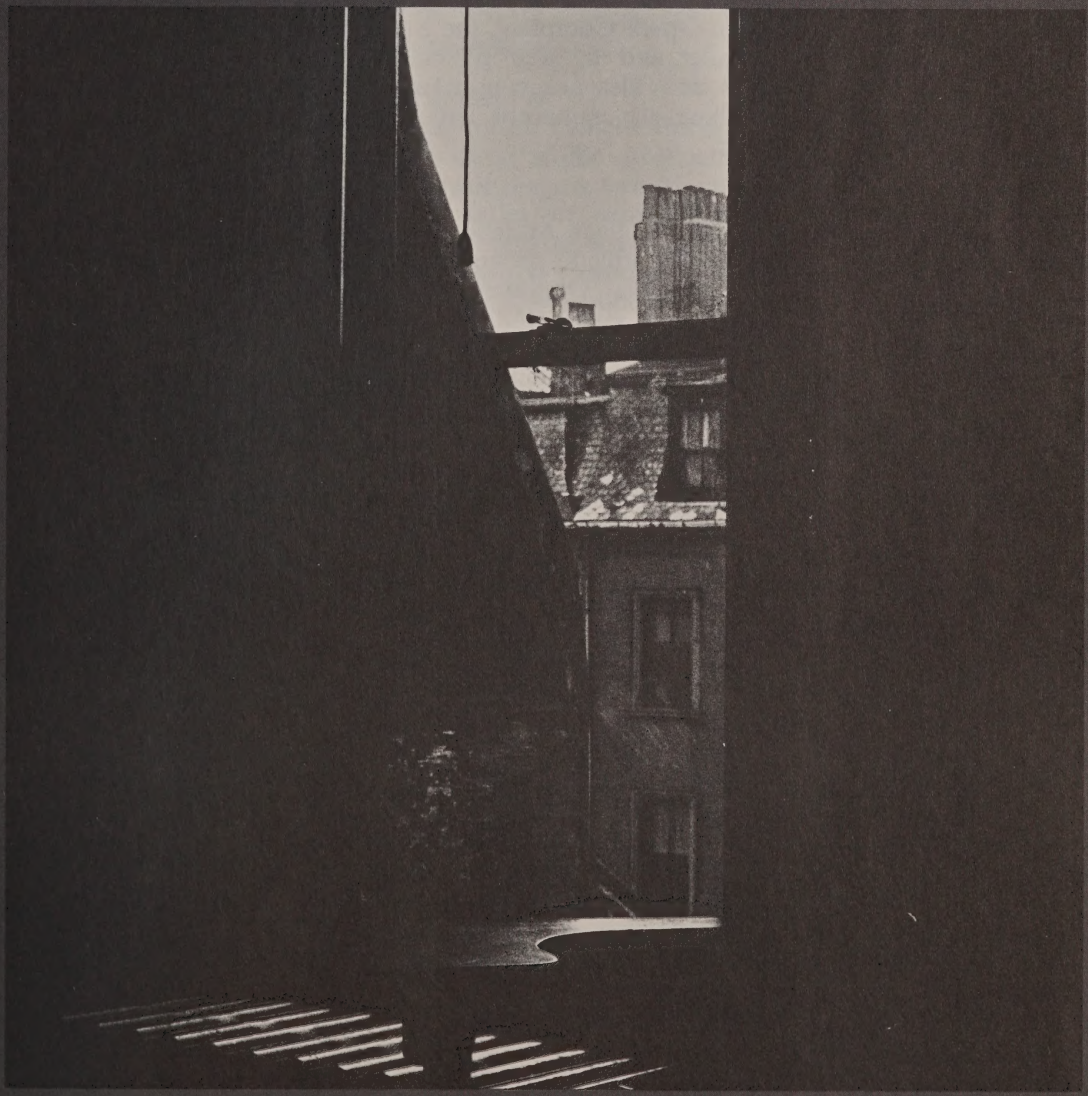
student life



CAMPUS LIFE

Student life at Emerson is friendly and informal. Each student has ample opportunity to work for the success of some event and to develop social poise, as well as to participate in recreational activities essential to a well-rounded personality.

The College encourages students not only to participate in the on-campus events held throughout the year but also to visit museums and galleries and to attend the many plays presented during the theatrical season and performances of resident theatre groups, the Boston Opera Company, the Boston Symphony Orchestra, the Boston Ballet, and the Metropolitan Opera.

Student activities are conducted with minimal faculty supervision. These are numerous and diverse, among which are the following:

Activities

Athletics

The Emerson College Athletic Association administers the varsity and intramural athletic program under the supervision of the Director of Athletics. Organized athletics include baseball, basketball, ice hockey, sailing and wrestling. The Emerson Sailing Club, open to all students, offers free sailing lessons. From time to time, additional activities are initiated and organized by students and by the Athletic Association.

Broadcasting

Any student enrolled in the College is eligible to audition for technical or performance work with the Emerson broadcasting facilities operated by the Department of Mass Communications: WERS, an 18,000-watt, non-commercial FM station assigned to 88.9 megahertz, completely equipped with professional studio and transmitting facilities and serving Greater Boston; WECB, a closed-circuit and carrier station with complete facilities, which serves Emerson student lounges, residence halls, and other colleges in the Back Bay; and WERS-TV, a closed-circuit station which serves the College and is equipped for the production of professional television programs and for the integration of slides and film.

College Chorus

The Emerson College Chorus sings on special occasions, including all-college convocations and commencement. It presents a major concert with professional soloists and orchestra in the spring.

Community Services

The Departments of Dramatic Arts and Theatre Education serve the culturally deprived and underprivileged through programs of

drama therapy and community theatre. The Children's Theatre Division of the Theatre Education Department sponsors two touring productions annually for the schoolchildren of the Greater Boston area. Other field work in both programs is done in cooperation with nearby hospitals and community centers.

The Education Department has programs which provide tutors and teacher aides to social agencies such as the Kennedy Family Center, ABCD, Headstart, North End Union, Boston School Volunteer Program, and the Castle Square Day Care Center.

Similarly, seniors and graduate students in speech therapy work in public and private schools, hospitals, and rehabilitation centers in the Greater Boston area.

Dramatic Productions

Public theatre performances during the year include six major productions, three studio productions emphasizing the experimental aspects of theatre, two touring children's shows, two dance dramas, and series of workshop and practicum productions staged and directed by advanced students. The Musical Theatre Society mounts a major production each year; and the Performing Arts Society provides additional theatre opportunities for student playwrights, directors, actors, and actresses.

Publications

Student publications include the *Berkeley-Beacon,* a newspaper issued bi-weekly during the college year; the *Emerson Review,* a literary quarterly; *The Emersonian,* the senior class yearbook; and *Prospectus,* a publication of the Mass Communications Department.

Speech Performances

The Emerson Forensic Council, one of the original members of the Greater Boston Forensic Association, stimulates and competes in speech activities. Regularly scheduled debates provide experience for novice and varsity debaters. The Emerson Debate Team has an outstanding record in international competition. Other speech performance opportunities are provided students through the Speech Choir, the only such college organization in the East. The choir holds weekly rehearsals and performs at the College and tours the Greater Boston area. In addition, members of the Oral Interpretation Society participate in collegiate speech festivals in many parts of the country.

The Southwick Recital Series, which affords Emerson students and the public opportunities to hear great dramatic masterpieces read by outstanding interpreters of dramatic literature, was inaugurated by Dr. Henry Lawrence Southwick. The series, the first of its kind in Boston, has continued in unbroken succession since its inception in 1900.

Honor Societies

Alpha Epsilon Rho
The Beta Delta chapter of Alpha Epsilon Rho, the national honorary broadcasting fraternity, sponsors activities such as field trips and social events. The fraternity encourages and recognizes outstanding broadcasting students. Juniors and seniors are eligible for membership.

Alpha Psi Omega
The Sigma Omicron chapter of the Departments of Dramatic Arts and Theatre Education is one of the 380 chapters of Alpha Psi Omega, the national dramatics honor society. The fraternity seeks recognition of outstanding students and encourages students to participate in theatre productions. The chapter limits membership to juniors and seniors with high academic standing.

Delta Sigma Rho—Tau Kappa Alpha
This forensic fraternity, founded in 1906, admits into membership only those debaters who have had intercollegiate forensic experience and members of the Speech and Communications Studies Department faculty who have at one time been associated with debate.

Sigma Alpha Eta
The Department of Speech Pathology and Audiology has a chapter of Sigma Alpha Eta, national honorary fraternity for men and women preparing to be speech and hearing therapists.

Gold Key Society
The Gold Key Society, an honor organization established in 1962, fosters student leadership and serves the College.

Organizations

Student Government Association
All students are members of the Student Government Association. Its well-formulated plan of self-government provides an opportunity for democratic solutions of student concerns. Members serve on all major College committees, including Trustee committees. S.G.A. officers and the four class presidents comprise the Student Government Council, which works closely with the faculty and the administration in matters of general College welfare.

Emerson's Black Organization with Natural Interest
E.B.O.N.I. is an organization of students of African descent dedicated to furthering the involvement and increasing the influence of Afro-American students in the academic and social activities of the College and the community.

Religious Organizations
Throughout its history, Emerson College has preserved its reli-

gious tradition and recognizes the importance of religion in its educational program through scheduled devotional convocations. Members of the College community and guest speakers from various faiths conduct nonsectarian and nondenominational services.

Chapters of the Hillel Foundation, the Newman Club, and the Student Christian Association serve Jewish, Catholic, and Protestant students. The Interfaith Council coordinates their activities.

Activities Fees

Representatives of student organizations and student government officers supervise the disbursement of the activities fee, which is paid by all students (for the cost, see page 27). Any student organization recognized by the Student Government Association may request an allocation from the activities fund.

THE CAMPUS

The College is located in the historic Back Bay area of Boston, a short walk from shopping areas, the theatre district, the Boston Common and Public Garden, and Beacon Hill.

Classroom and Administrative Buildings

67-69 Brimmer Street
All the classrooms and staff offices for the First-Level Program are housed at 67-69 Brimmer, as are the offices of the Fine Arts, Psychology, and Foreign Language departments. The multi-media center is also located there; it includes a collection of slides, tapes, and film, a light board, and sound and projection equipment. Students can make arrangements with the First-Level staff to use the multi-media center.

126 Beacon Street
On the ground level are the offices of Placement, Career Counseling, and Summer Session; above, on the first floor, are offices of the Dean of Students. The main offices of the English Department are on the fourth floor; and classrooms are on the first, second, third and fourth floors.

128 Beacon Street
Faculty offices and the theatre make-up room are on the ground level; the Registrar and Assistant Deans of Students have offices on the main floor of this building; and above, on the second floor, are the main offices of the Dramatic Arts Department and a rehearsal studio. The costume department is located on the third floor, and there are classrooms on the fourth.

130 Beacon Street
At the basement level are the student "Smoker" and the offices

of the Theatre Education Department. The main floor is occupied by the Admissions Office, the Financial Aid (and part-time placement service) Offices, the Financial Office, and the switchboard. On the floors above are the two television and two radio studios and the offices of the Mass Communications Department.

Across the courtyard at the rear of 130 Beacon is the College theatre, which seats approximately 150 and is the setting for most major productions of the Dramatic Arts and Theatre Education departments. The scene shop adjoins it.

143 Beacon Street
Southwick Hall (directly opposite 126 and 128 Beacon Street) is mainly a classroom building. The audio-visual department is in the basement at 143 Beacon. Audio-visual equipment is avilable for loan to students, faculty, and administration.

145 Beacon Street
Ross Hall, opposite 130 Beacon at the corner of Berkeley Street, houses the offices of the Vice-President for Administration and External Affairs and of the Business Manager on the first floor; the offices of Public Relations and Alumni/Development on the second; the office of Alumni/Development records and research on the third; and the offices of the Social Sciences and History departments on the fourth. Classrooms are also on the third and fourth floors.

148 Beacon Street
Half a block from the intersection of Beacon and Berkeley streets, this building houses the printing and mailing department in the basement; the President's office on the main floor; dining rooms (second floor); and the main offices of the Education and the Speech and Communication Studies departments, which are on the third, fourth, and fifth floors. On the fifth floor are soundproof listening booths maintained by the Speech and Communication Studies Department and available to all students for practicing and comparing voice recordings.

150 Beacon Street
This building, Governors' House, is the location of the College Book Store (basement), where, in addition to textbooks, students may purchase supplies and a variety of personal articles.

On the main floor at 150 Beacon Street are the offices of the Vice-President and Dean of the College, the Music Department offices, and a rehearsal studio. The main dining hall of the College is on the second floor. The third, fourth, and fifth floors comprise a women's residence hall.

College Union
Located at 96 Beacon Street, it includes a students' cafeteria in the basement; a TV lounge, information center, and student mailboxes on the main floor; and meeting halls, conference rooms, the Athletic Department offices and equipment storage rooms, offices for all student organizations, and a faculty lounge. Many social and academic events take place at the union; it is, on occasion, available for use by outside groups.

Abbot Memorial Library
At 303 Berkeley Street next to Ross Hall and facing on Berkeley Street is the Abbot Memorial Library, the gift of Miss Elizabeth Abbot Smith in memory of her great-great-grandfather, Abiel Abbot, D.D., of Peterborough, New Hampshire, who founded the world's first free tax-supported library.

The library houses a basic collection of books, which is growing at a rapid pace. The majority of the collection is made up of books dealing with speech, theatre, radio, and television. As of January 1972, the total number of volumes was 47,000. The library staff is also actively acquiring non-print media, which include tapes, records, films, and microfilms.

Every effort is made to use these resources to the utmost through individualized instruction and reference service to the College community. In addition, the library staff has recently instituted a course in developmental reading and study skills. During the summer of 1970, the first floor of the library was renovated with funds made possible through the bequest of the Alice M. Teed Charitable Trust. These rooms now provide a spacious and attractive background for poetry readings and lectures sponsored by the library throughout the academic year.

Robbins Speech and Hearing Center
Together with the offices of the Communication Disorders Department, the center occupies all six floors at 168 Beacon Street. In the basement is the Thayer Lindsley Nursery School for Pre-School Deaf Children. The building also contains equipment for the evaluation and treatment of speech and hearing disorders. The services of the center are available to all Emerson students, free of charge.

Student Residence Halls

Emerson student residence halls are close to classroom and administrative buildings in the Back Bay. Residence halls are at 22-24-26 Commonwealth Avenue; at 86 Marlborough Street; at 100 Beacon Street (Emerson Hall); at 132-134 and 150 Beacon Street (Governors' House); 175, 181-183, 206, 317, and 357-359

Beacon Street. The office of the Director of Residence Halls is located in Emerson Hall at 100 Beacon Street, as is the College infirmary.

For details concerning student residence halls and regulations governing residence hall living, refer to the *Student Handbook*, the *Dormitory Handbook*, and the Residence Hall Contract.

SERVICES

The Office of the Deans of Students

The Deans of Students are concerned with the adjustment of each student to all aspects of college life, from campus activities and interests to new associations, friendships, and educational experiences. To assist in the transition from high school to college, the Dean of Students and the Assistant Deans are glad to advise and counsel students individually or in groups.

The Deans are available for consultation about student problems, whether academic, family, or personal; they may, as occasion warrants, initiate conferences with students.

Personal counseling may be arranged with the deans with the assurance of confidentiality.

Placement and Career Counseling

The Emerson Placement Office assists students and alumni in obtaining part-time and full-time positions in their fields of interest. The office receives requests regarding vacancies in administration, teaching, speech pathology, broadcasting, public relations, and other related fields. The requests come from business firms, radio-TV stations, schools, colleges, and personnel agencies.

Emerson College students and alumni are eligible for placement service. Students are also directed to the services of the placement offices of other institutions with which Emerson has reciprocity. Registration with the placement office is not compulsory, but is strongly recommended in order to establish a permanent placement file.

A career counseling service is also available to those students and alumni who seek assistance in deciding upon careers and investigating opportunities in their chosen fields. The service also provides help in obtaining interviews and preparing résumés.

Health

The College maintains a health clinic and infirmary at Emerson Hall, 100 Beacon Street, under the direction of a registered nurse and supervised by the College physicians, who hold regular clinic hours and are available in case of emergency. College health au-

thorities determine the length of infirmary residence and the need to transfer the student to home or hospital. The College provides clinic facilities and services only. The student pays for additional treatment or advice by a physician outside the clinic. At the beginning of Term I and Term II all students pay a health fee (see page 26). The fee covers health and accident insurance, the services of the health clinic, and the College Mental Health Center, which provides psychiatric consultation and evaluation services. Included in the health fee is an insurance plan which protects students against the expense of major illnesses or injuries for the academic year. In the latter part of the summer, new students receive full information about the plan.

Food

The College staff serves breakfasts and dinners in the dining room of Governors' House at 150 Beacon Street. Lunches are available at the College snack bars or in nearby cafeterias and restaurants.

REGULATIONS

The College expects students to conform to recognized standards of morality, good order, and consideration for others.

Automobiles

Students who live in an Emerson residence hall may not maintain an automobile unless they have an off-street parking space. Students, whether resident or non-resident, who drive cars to the College must record their registration numbers with the Business Manager and file with him a form required by the Boston Police Department. The College strongly urges commuting students to use public transportation.

Residence Hall Living

Freshman men and women under 21 years of age who do not live with immediate relatives must live in the College residence halls. Students living in an Emerson residence hall in September may not withdraw from it during the year.

By April 1, the College expects returning students to record with the Director of Student Housing where they plan to live in the following academic year.

If for any reason the residence hall chosen by the student is not available in the fall, the College reserves the right to assign other rooms as nearly equivalent as possible.

Regulations governing the residence halls are contained in the Residence Hall Contract and in the *Dormitory Handbook* published each year.

admissions

ADMISSIONS PROCEDURE

Admissions Policy

The Admissions Board acts on all applications for admission on both the undergraduate and graduate levels. Inquiries regarding admission and all correspondence concerning entrance requirements and transfer of credits from other colleges should be addressed to the Director of Admissions. The deadline for applications for entrance in September is June 1, and in February, December 15.

The College considers for acceptance on an equal basis all students without regard to race, color, creed or national origin.

UNDERGRADUATE STUDENTS

Requirements

Selection of undergraduate students is based upon an evaluation of the following:

1. A transcript of the secondary-school record, showing graduation and including the recommendation of the school. Advanced Placement may be accepted as a ground for exemption from certain requirements in the freshman year, but ordinarily credit will not be given.
2. Applicants will normally be required to show evidence of four years' study of college-preparatory English, and two years' study each of a foreign language, mathematics, and science.
3. Scholastic Aptitude Test of the College Entrance Examination Board taken during the junior year or in November, December, or January of the senior year.
4. Achievement Test in English Composition taken during the junior year or in December or January of the senior year.
5. Two letters of character recommendation, preferably from two teachers; however, one recommendation from an employer is also acceptable.
6. An autobiographical letter or personal interview; the latter is recommended but not required. If the applicant does not schedule a personal interview with the Admissions Office, he or she is required to submit an autobiographical letter with his or her application for admission.

EARLY ADMISSION

A high school National Merit Scholarship Finalist or Semi-Finalist who has the approval of his or her secondary school may apply during the junior year and be considered for admission as a Freshman in place of the senior year. In order to be given favorable consideration under this program, the secondary school must

agree to grant the applicant a diploma upon satisfactory completion of his or her Freshman year at Emerson.

TRANSFER STUDENTS

An application for admission by transfer must present an official transcript of his or her college record, a catalogue from that college, and evidence of honorable dismissal. Transfer credit is allowed for most course work if the applicant received a grade of at least 70 (C—). In addition, the applicant should furnish two references from instructors at the last college or university attended, a secondary-school transcript, and the results of the Scholastic Aptitude Test.

TRANSFER STUDENTS FROM TWO-YEAR COLLEGES

An applicant for transfer from an accredited junior or community college will be accepted with full junior standing if the following conditions are met: (1) must be a recipient of an Associate Degree in Arts or Science; and (2) must satisfy admission requirements as determined by the Admissions Office and the department to which the applicant is applying.

FOREIGN STUDENTS

The same admissions procedure is followed for foreign students as for freshman and transfer students. If English is not the applicant's native language, the applicant must submit a statement from an individual who can certify his or her ability to read, write, and speak English satisfactorily, and take the Test of English as a Foreign Language (TOEFL) which is administered by the EDUCATIONAL Testing Service for the College Entrance Examination Board. The Scholastic Aptitude Test and the Achievement Tests of the College Entrance Examination Board, as well as the Test of English as a Foreign Language, are given in many parts of the world.

ADMISSION TO TERM II

A limited number of properly qualified candidates are admitted to Term II of the academic year. Every effort is made to assist these new students in arranging programs that will be of the greatest benefit, but the College assumes no obligation to provide an orderly sequence of required courses for those who enter in Term II. Occasionally, but not always, such students find it necessary to attend a Summer Session in order to complete requirements within four years.

READMISSION

A student wishing to re-enroll after an absence of one term must apply for readmission for either Term I or Term II. No admission is granted for Term IA. A student wishing to re-enroll after withdrawing during the preceding term must have the approval of the Admissions Director and of the Dean of Students.

financial information

CHARGES

Financial Policy

Every student is held responsible for knowledge of financial obligations printed in this catalogue.

All fees and charges are subject to change as the College deems necessary.

As a prerequisite for entering classes, students must pay tuition and dormitory fees by August 15 for Terms I and IA, and by January 15 for Term II.

Students are charged for damage or breakage in any of the College buildings.

Deferred-Payment Plans

Students who wish to pay tuition and other fees in monthly installments may do so through Tuition Plan, Inc., or College Aid Plan. All arrangements are made through the Comptroller of the College, to whom inquiries should be addressed.

Undergraduate Tuition and Fees

Undergraduate students (including auditors) pay tuition in two billings. The first is for Terms I and IA. The second is for Term II.

Fees are subject to change. They are billed as follows:

Undergraduate Fees

Application	$25.00
Insurance and Health, per academic year (required)	65.00

Students may elect full 12-month coverage with additional payment. Full information is sent with first billing.

	1st billing	*2nd billing*	*Total*
Tuition	$1410.00	$ 940.00	$2350.00
Room and Board	840.00	560.00	1400.00
Activities Fee	40.00	26.00	66.00
Student Insurance	65.00		65.00
Orientation Fee*	25.00		25.00
Total:	$2380.00	$1526.00	$3906.00

* *One-time charge.*

Although the academic calendar is divided into three terms—12 weeks, 6 weeks, 12 weeks—Terms I and IA are considered as one term. For this reason the first billing is larger than the second. Students leaving at the end of Term I do not receive a refund for Term IA. Students taking extra credits are billed at $80 per credit hour; part-time students pay $90 per credit hour.

The maximum number of credits allowed without additional charge is eighteen (18) for Terms I and IA and twelve (12) in Term II. No transfer of credit allowance is permissible between Terms I and IA (combined) and Term II.

Nine or more credits in Terms I and II and six in Term IA are considered a full-time program and are subject to a full tuition charge.

Student activities, per year $66.00

This fee includes class, Student Government, and Athletic Association dues, subscription to yearbook and college paper, and support of the Student Government Association activities. (For part-time students the charge is less.)

Tuition deposit, at time of acceptance 100.00

This fee is not refundable and is credited to the tuition charge for Term II of the senior year.

Late registration 10.00

This fee is for registration later than the days announced in the catalogue.

Change of program 1.00

This fee is for changes of program made between filing of schedule and the end of the first week of classes.

Late change of program 5.00

This fee is for changes of program made during the second week of classes. (No changes may be made later than two weeks after classes begin.)

Special examination fee 10.00

This fee is for special examinations taken because the student has been unable for acceptable reasons to take them at the regularly scheduled times.

Orientation 25.00

This fee is for freshman and transfer students.

Room, breakfast, and dinner, per year 1400.00

This fee is for resident students. No reservations are accepted for Terms I and IA only. The fee is payable in full for reservations cancelled after June 1.

Room and board deposit 100.00

This fee is credited against the total residence hall charge and is

required for residence hall reservations by May 1 for returning students and at time of acceptance for applicants for admission. It is not refundable after May 15; the $100.00 deposit is credited to Terms I and IA.

Deposit for breakage (men only), per year 15.00

A deposit to cover room damage beyond normal wear and tear is required from each dormitory resident. Students will be billed by the College for any damage which results from their action. If there is no damage done by the student during his term of residence in the dormitory (ies), the deposit will be refunded in full when the student terminates his residence.

Books and supplies approximately $100.00

This fee is not chargeable.

Commencement, at opening of final term, senior year only 15.00

Transcript of Record

A student in good financial standing may obtain transcripts of his academic record for a fee of $1.00 per copy.

Extra Charges for Special Undergraduate Programs

Students who undertake off-campus, special tutorial, or independent-study programs that require additional expenses such as travel, hotel, and food must pay for these in addition to tuition, room and board, and other regular fees charged by the College. Board cost adjustments for absences due to special programs will be made if savings result to the food contractor. Requests for board adjustments must be submitted to the Financial Office.

Special Charges for Graduate Students *

The tuition for graduate students is $80.00 per credit.

Acceptance of transfer credits, per credit	2.50
Binding thesis, per copy	7.50

FINANCIAL REGULATIONS

Refunds

The College does not make refunds for residence hall or other fees, and withdrawal does not eliminate responsibility for amounts due at the time of withdrawal.

The College makes tuition refunds only to students who file written withdrawal notice in the Registrar's Office; withdrawal is effective no less than five days after the filing of the notice, which must be signed by the person responsible for the payment of bills and by College officials.

Tuition refunds to students officially withdrawn are made as follows, except that no refunds are made when withdrawal of a stu-

* *For further details see the Graduate Division Catalogue.*

dent is required by the College authorities: An 80% refund of tuition cost is made when withdrawal is filed during the first two weeks of classes; 60%, during the third week; 40%, during the fourth week; 20%, during the fifth week; and no refund is made when withdrawal is filed after the fifth week. A student withdrawing at the end of Term I receives no refund for Term IA (see page 26).

Involuntary withdrawal for reasons other than dismissal or suspension entitles a student to a credit equal to tuition fees paid for that term toward future Emerson College tuition charges. A doctor's statement of cause is required in all cases of illness or accident. In all instances, evidence that withdrawal is involuntary is required. The application of the credit must be requested at the time of withdrawal and used within five years. The Admissions Office of Emerson College passes on applications for readmission.

Loss of Property

The College assumes no responsibility for loss of student property in any of the College buildings through fire, theft, or any other cause.

FINANCIAL AID

Emerson College offers financial assistance to students with demonstrated financial need and academic promise. Assistance is awarded within the limit of funds available. In all cases, an award from the College supplements, and does not replace, the funds available to students from their own and their family's resources.

Each year Emerson awards scholarships and grants-in-aid from its own funds, and participates with the federal government in the Education Opportunity Grant, National Defense Loan and Work-Study Programs. The College makes awards in the form of a package which may include a combination of types of assistance such as scholarships, grants, loans, and jobs.

Freshmen and Transfers

Students should indicate on their admissions application an interest in applying for financial aid. An Emerson financial aid form is sent to them by return mail. This form should be completed and filed with the Financial Aid Office by March 15th. A Parents Confidential Statement should be completed and filed by March 15 with the College Scholarship Service.

Upperclass Students

Upperclass students must reapply each year for financial assistance whether it be initial, continuing, or additional. An Emerson financial aid application must be filed with the Director of Finan-

cial Aid and a Parents' Confidential Statement submitted to the College Scholarship Service by February 15 for the succeeding year.

Graduate Students

THE CURRICULUM

In 1880, Charles Wesley Emerson founded the Boston Conservatory of Oratory. The Conservatory, which eventually became Emerson College, was founded on a belief in the importance of oral communication and expression. Through the years, communications has remained the basis of the Emerson curriculum.

Today, recognizing that a rapidly changing and increasingly complex society and technology require flexible and innovative educational programs, the College has redesigned its curriculum.

THE NEW FIRST- AND SECOND-LEVEL PROGRAMS

The new curriculum consists of two levels. The First Level, for freshmen and sophomores, is an interdisciplinary program which helps students interpret their own experiences; encourages them to experiment with the various communications media—written, verbal, and visual; improves their basic written and verbal skills; and provides them with an introduction to science and the humanities.

At the Second Level, for juniors and seniors, students concentrate in one of the communications arts and sciences or in one of the liberal arts. In each field, students not only study techniques and factual material but also learn to be perceptive, critical, and creative.

THE THREE-TERM CALENDAR

To encourage creative experimentation with various media and to give students the opportunity to develop and execute individual and group projects, the academic calendar is divided into three terms, 12 weeks, 6 weeks, and 12 weeks. During the six-week term especially, students may carry out individual projects or take special courses which may be either traditional or experimental.

UNDERGRADUATE DEGREES

The College offers Bachelor of Science in Speech, Bachelor of Science, and Bachelor of Arts degrees in the fields of Communication Disorders, Dramatic Arts, Elementary Education, Mass Communications, Speech and Communication Studies, and Theatre Education; and Bachelor of Arts only in English, History, and Psychology-Education. In addition, the Bachelor of Music degree is offered in conjunction with the Longy School of Music in Cambridge, with approximately a year's study required at Emerson College.

In 1972, the College was authorized to grant the degree of Bachelor of Fine Arts. Details of the requirements for this degree can be secured from the Office of the Registrar. (See page 42.)

Interdisciplinary programs of concentration leading to baccalaureate degrees may also be arranged through department chairmen. For those offered in 1972-1973 see p. 122.

GRADUATE DEGREES

Emerson College offers the degrees of Master of Science in Speech and the Master of Arts in the fields of Dramatic Arts, Mass Communications, Speech and Communications Studies, Communication Disorders, and Theatre Education. For complete information, refer to the *Graduate Division Catalogue.* Copies are available through the Office of Admissions.

ADJUNCTIVE PROGRAMS

Summer Session

The annual Summer Session runs from early July to mid-August. It provides concentrated study in the College's professional and related fields on both the graduate and undergraduate levels, and offers programs of special value to inservice teachers and others concerned with these fields. Of special interest to high-school seniors are non-credit courses in drama, basic speech, and English. (For detailed information, write the Director of the Summer Session.)

Summer Session in Europe

Since 1966, the College has also offered a summer program in Europe under the direction of Emerson faculty members. In the summer of 1972, the program was conducted for five weeks in England and France. (Inquiries should be made to the Dean of the College.)

ACADEMIC REGULATIONS

ATTENDANCE

The College expects students to be prompt and regular in attendance at classes. Attendance may be a factor in determining a student's grade. Each instructor, in accordance with the nature of the subject, determines the number of absences permitted without lowering a grade.

Students are responsible for notifying the Registrar's Office of absences from courses in which instructors require attendance. In case of prolonged absence due to illness, the student should immediately confer with the Registrar and with his instructors. The College will make every possible adjustment to permit him to complete the work and to re-enter courses without loss of credit.

LEAVE OF ABSENCE

Students in good standing who wish to interrupt their Emerson degree program for such reasons as to take advantage of a professional or educational opportunity may apply for a Leave of Absence. A Leave of Absence may also be granted by reason of accident or illness. Application for a Leave of Absence should be made through the office of the Dean of Students.

A Request to Re-register form must be obtained from the Admissions Office and returned, completed, to that office prior to the beginning of the term in which the student wishes to enroll. The granting of a Leave of Absence does not exempt the student from any financial responsibilities as stated in this Catalogue.

COURSE CHANGES

The student's faculty advisor and the Registrar's Office must approve any change in course schedule. Students must also have the permission of the instructor to enter a new class after it has begun. After the first week of a new term, petitions to drop or add courses are granted only for extraordinary reasons and are subject to the approval of the appropriate instructors.

After assignments for clinical practice have been made, no student majoring in Communication Disorders may make any schedule change that will conflict with such assignments.

For returning students, changes made in the first week cost $1 each. After the first week, each change costs all students $5; new students may make changes in courses without charge for the first week only.

GRADE CHANGES

Instructors must give their requests for grade changes, countersigned by their department chairman, in writing to the Registrar. Students should check with the Registrar to be sure such grades are changed on their permanent records.

CHANGE OF ADDRESS

Students are responsible for notifying the Registrar's Office of any changes of local address. The address information must include a phone number.

DEGREE APPLICATIONS

By the end of the junior year, students must fill out a degree application in the Registrar's Office.

EXTRA CREDITS

Students wishing to take extra credits must petition the Registrar to do so. If they are not seniors, they must have an average of 3.0 or above. Extra courses, senior or otherwise, are billed at the rate of $80 per credit hour.

CLASS STANDING

Each September the Registrar determines class standing for the academic year.

The credits for students graduating in June 1972 and thereafter:

Freshman	Fewer than 24 credits
Sophomore	24-53 credits
Junior	54-83 credits
Senior	84 or more credits

COURSES AT OTHER INSTITUTIONS

Students may take courses at other institutions for transfer credit only with the written approval of the Registrar. A grade equivalent to 70 at Emerson College is the minimum accepted for transfer credit, and an official transcript and a catalogue of the college attended are required.

Through agreements students may take courses for credit at Suffolk University, Longy School of Music, and The School of the Museum of Fine Arts.

CHANGE OF MAJORS OR CONCENTRATIONS

Any change in majors or concentrations should be recorded immediately in the Registrar's Office and must have the approval of the appropriate departments.

ENROLLMENT IN ADVANCED AND GRADUATE COURSES

Students may not enroll in courses in advance of their standing except by permission of the instructor and of the Registrar. Seniors may be admitted to graduate (500-level) courses with written permission of the course instructor and the Chairman of the department. In these cases credit given will normally be undergraduate credit; graduate credit will be given only if the student is not carrying a full course load of 12 credits in order to complete requirements for his undergraduate degree in that term. No student below the senior year may take 500-level graduate courses.

EXAMINATIONS

Complete regulations for term examinations and make-up examinations are published in the *Student Handbook.*

GRADES

The Registrar issues reports of academic grades to all students in good financial standing at the close of each term. The Registrar ordinarily sends these reports to the person responsible for payment of tuition and fees, and also sends copies to a student's preparatory school or high school at the end of each term of the freshman year if the school requests them.

The following grading system is used for most elective courses, but not for the interdisciplinary program for freshmen and sophmores. (For the First-Level grading system see page 4.)

Letter Grade	*Numerical Equivalent*	*Grade Points*
A	93-100	4.0
A—	90-92	3.7

ALL-COLLEGE ACADEMIC STANDARDS

ACADEMIC DISTINCTION

The Dean's List is composed each term of full-time undergraduate degree candidates who for the preceding term have earned an average of 3.3 or better.

The College awards graduation honors to students who have completed a minimum of two years in residence as follows: graduation average of 3.3, Honors; of 3.6, High Honors; of 3.8, Highest Honors.

ACADEMIC PROBATION, SUSPENSION, AND DISMISSAL

Probation: Probation is official notice to a student that his cumulative average is below the all-college minimum standards of academic achievement. The cumulative average is based on a student's academic record for two or more terms at Emerson.

Applicable to the Classes of 1972 and 1973: Any student whose cumulative average is below 1.7 at the end of any complete term shall be placed on probation.

Applicable to the Class of 1974 and Classes Thereafter: Any student who will graduate in January 1974 or thereafter must have a cumulative average of 2.0. In the freshman and sophomore years, a student must have a 1.7 cumulative average or be subject to probation. In the junior year, a student must achieve a cumulative average of 2.0, and he must maintain this cumulative average in order to graduate.

It is understood that the 2.0 requirement is an all-college minimum standard requirement. Each department has the prerogative to require a higher cumulative average in the major field of study.

NOTE: First-Level students are subject to the minimum standards of the First-Level Program (see page 49) in addition to the all-college standards.

Second-Level students are subject to the departmental requirements concerning their major fields, and these may be higher than the all-college minimum standards.

Suspension

When a student remains on academic probation for two successive terms, he is subject to suspension from the College for not less than one academic year. After a year of suspension, the student may apply for readmission.

Dismissal

If, after a thorough review of a student's academic record, the Aca-

demic Standards Committee determines that academic success at Emerson College is unlikely for that student, he will be dismissed. A student who is dismissed for academic reasons ordinarily may *not* apply for readmission.

BACCALAUREATE DEGREE REQUIREMENTS

CREDITS REQUIRED FOR GRADUATION

Beginning with the class of 1974, the College has redefined requirements for graduation. Of the 120 credits needed for graduation, 60 are earned in the First-Level Program and the remaining 60 in the Second-Level Program. All previous catalogue statements of specific all-college requirements for graduation have been abrogated, except for the classes of 1972 and 1973.

All-College Requirements for Classes Beginning with 1974

The 36 core-program credits of the First-Level Program will meet the general requirements for all undergraduate degrees except Bachelor of Music. A study of black culture is included in the core program. This meets the 3-credit requirement in black studies.

Freshmen who anticipate majoring in a department which grants the Bachelor of Arts degree should be aware that 12 credit hours of one foreign language are required. This requirement is in addition to the general requirements, which are met by the 36 core credits of the First-Level Program.

Students who are admitted to and successfully complete 6 credits of a third-year language course, however, meet the requirements for the Bachelor of Arts degree.

The 24 elective credits of the First-Level Program are designed to let students explore fields of professional and personal interest. First-Level Program students may, with the permission of the major department offering the course, include Second-Level courses as a part of the 24 elective credits which they are expected to take during their first and second years. In addition, students must meet the special requirements of the department in which they are planning to major. These requirements are listed under the course descriptions for each major department beginning on page 52.

Requirements for Transfer Students

Students who transfer from other colleges into the First-Level Pro-

gram may, with the approval of and in consultation with the Director of the First-Level Program, apply the credits they have earned at other institutions to the 60 credits required for completion of the First-Level Program.

Second-Level Program

The Second-Level Program is designed to provide a student the type of professional education that will give a head start on a career. The program is flexible. It takes account of differences in the maturity, personality, goals, and intellectual and artistic abilities of each student. By the end of the sophomore year, a student must choose one of three options: viz., (1) a regular department concentration (requirements are at the beginning of the course listing of each department), (2) an interdisciplinary concentration (see page 122), (3) of a student-faculty interdisciplinary designed concentration, in which off-campus studies here or abroad, work at other colleges, or individually selected courses at Emerson College to fulfill a specific educational goal may be arranged. Further information about the Second-Level Program is available in the Office of the Registrar.

Second-Level Requirements Beginning with the Class of 1974

Specific course requirements for the Second-Level Program are satisfied by the completion of the First-Level Program. Students who transfer from other colleges without entering the First-Level Program must complete the following requirements: 6 credits of composition, 6 credits of fine arts and/or music, 6 credits of history, 3 credits of philosophy or religion, 3 credits of psychology, 3 credits of social science, 3 credits of general science, 6 credits of speech, and a course in Black Studies (if not fulfilled in the above electives).

Requirements for Bachelor of Music Students

Longy School students must fulfill the following requirements for an Emerson Bachelor of Music degree: 12 credits of English (6 credits of composition, 6 credits of Introduction to Literature), 6 credits of history, 6 credits of fine arts, 6 credits of languages (12 credits if Voice Majors), 90 credits of music from Longy (Instrument Major), 84 credits of music from Longy (Voice Major).

Transfer students to Longy will be required to complete a minimum of 15 credits at Emerson for the Bachelor of Music Degree.

All-College Requirements for the Classes of 1972 and 1973

Students in the classes of 1972 and 1973 are expected to meet the degree requirements listed on pages 40—42 of this catalogue or listed in any other catalogue which may have been in effect at the time of their admission. Students graduating in the calendar year 1973 are required to have 3 credits in black studies, in addition to meeting the requirements listed on pages 40—42.

Baccalaureate Degree Requirements for the Classes of 1972 and 1973

General requirements for all undergraduate degrees except Bachelor of Music are as follows:

1. At least two full-time consecutive academic semesters, including final semester in residence.
2. Completion of 120 credits, with an average of 70, and 90 credits with grades of at least 70 for those students who graduate in June 1971 and thereafter.
3. Vote of the Board of Trustees upon the recommendation of the faculty. Each degree candidate is responsible for meeting all requirements; no official can relieve him of this responsibility.

BACHELOR OF LITERARY INTERPRETATION

The degree Bachelor of Literary Interpretation has always implied excellence in oral interpretation. Emerson College therefore offers this degree for students whose primary interest is public platform performance. Because of the many necessary courses in speech, two years in residence are required. The program is identical with that for the degree Bachelor of Science in Speech, with a Speech and Communications Studies (Oral Interpretation) major, and additional requirements as determined by the Speech and Communications Studies Department.

ADDITIONAL DEGREES as of May, 1972

BACHELOR OF FINE ARTS

The College recognizes that communication has become increasingly visual and, along with this recognition of communication change, has come an understanding of the individual's role in the communication process. The greatest need of the mass media is to improve the quality of the materials. Since the first point of improvement should begin with the individual contributor, the curriculum has been revised to strengthen such fields as film making, visual design for stage, film and television, creative writing, photography, the interpretive and performing arts, and the interdisciplinary aspects of current offerings by the College.

The creative aspect of the indvidual's understanding and application of perceptual awareness of such areas as color and imagery, form and structure, texture and line are emphasized in this proposed degree program. Both at the beginning and the conclusion of the program, the student submits a portfolio or audition to show understanding and application of such fields as acting, design, oral interpretation, directing for film and television, or creative writing. For additional information and specific requirements, the student should consult the Registrar's Office.

BACHELOR OF SCIENCE

Communication Science is one of the bases of the Emerson College program. The study of psychology, communication theory, anatomy and physiology of the speech mechanism, speech science, phonetics and communication disorders is essential to this program.

In addition, a number of areas within the communicative fields of radio, television, film, and the related intercultural disciplines require an analysis and synthesis of the materials produced by others. Also students who are interested in the sociological, economic, and political implications of media or in communications law may wish to work toward this degree.

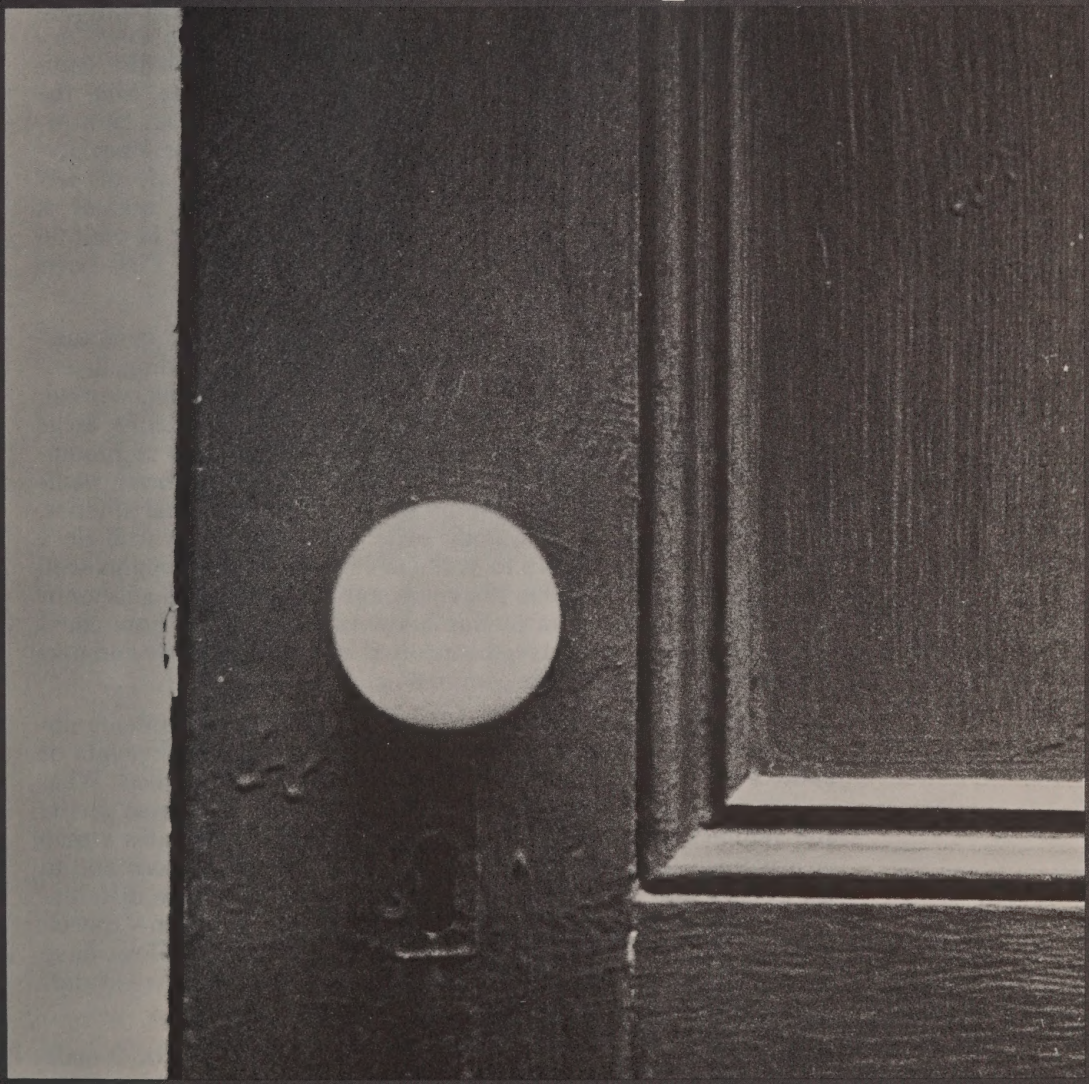
the first level program



FIRST-LEVEL PROGRAM FOR FRESHMEN AND SOPHOMORES

The primary objective of the First-Level Program is to prepare students for a concentrated study in an area of the communication arts and sciences. The First-Level Program consists of a two-year synthesis of a Core Program and electives. The electives permit the student to explore, in an immediate and direct way, his unique personal and professional interests. On the other hand, the required Core Program, organized around the concept of Man the Communicator, provides a basic and shared foundation in the communication arts and sciences for all Emerson students. Man the Communicator is studied from the vantage point of an interdisciplinary curriculum. The interdisciplinary program combines performance in the basic communication skills with a study of pertinent ideas and content. Within the program the student is expected to become an active participant, involving himself in creative ways in achieving the educational goals of the First-Level Program.

Under faculty guidance, students work on the basic communication skills, which include taking in information by reading, listening, and seeing, and giving out information by speaking, writing, and visual presentations. The stress on these basic skills helps students to develop self-confidence and the ability to communicate with others. Involved in this development of basic communication skills is the maturation of the students' critical abilities. Students and faculty constantly raise questions: How well do I listen to what others have to say? Do I organize my thoughts well when I write or speak? Do I have enough information to answer or discuss possible answers to this question? Where and how can I get more information? Have I expressed my opinions fairly and persuasively? Am I a creative communicator?

The interdisciplinary curriculum is designed to help students understand an issue or topic from several disciplines and points of view. For instance, the nature of leadership may be studied. What makes one man a leader and another a follower? Can mass media and public relations firms make a leader? What motivates a man or a woman to lead? To answer these and other questions and to get deeper into the theme, students and faculty examine different types of leadership and various forms of communication—speech, writing, radio, television, drama, newspapers, film. How have leaders employed these many forms of communication? Are leaders communicators?

Although the faculty of the First-Level Program cannot be Renaissance men and women, together they represent and seek to inte-

grate the wide range of specializations within the College. In addition to being specialists in their academic fields, the faculty members of the First-Level Program are also generalists who are involved in team teaching. In classes and other presentations, they not only attempt to help students understand a specific idea or issue but also point out its significance in the larger communication, social, and philosophic context in which it exists. They also try to bridge the gaps between the academic disciplines by identifying for students the relationships between disciplines. Most important of all, the faculty, by example and through assignments, try to develop in students the attitudes and skills of the generalist.

Students are not considered passive recipients who simply absorb what the teacher says and then give it back. Instead, students are active participants. They must explore and dig into topics on their own. The faculty does not expect students to accept without question the solutions offered by the men and women whose lives and works they examine. The aim is to make students aware of the depth and complexity of problems raised by viewing man as communicator, to expose them to the variety of answers given, and to help them learn and develop the procedures and judgments they can use to find answers for themselves.

Another important characteristic of the First-Level Program is the close relationship between students and faculty. Each student is assigned to a faculty member who is not only his advisor but his section teacher as well. Students meet with their teacher/advisors to discuss their academic performance, personal concerns, and special projects. The faculty are there to guide, encourage, and sustain students while they master the self-responsibility of active, creative participation in achieving the goals of the Program.

At the beginning of each Core term, the student is provided with a statement clarifying the basic educational goals of the term. Included in that statement is a brief over-view of the interdisciplinary curriculum for that particular term. Students are urged to familiarize themselves with the goals of each term and plan, in creative ways, to achieve those objectives.

FIRST-LEVEL ACADEMIC INFORMATION

REQUIREMENTS FULFILLED BY THE FIRST-LEVEL PROGRAM

In the First-Level Program, students earn 60 credits, of which the required Core Program provides 36; electives, 24. The First-Level Program provides the student with the necessary all-college

general requirements for any of the College degrees. The 36 Core Program credits include studies in such areas as black culture, fine arts, history, general science, literature, philosophy, psychology, social science, speech, and writing. As the Core Program is an interdisciplinary study of "Man the Communicator", which is carried out over a period of four terms, the student must complete all four terms in order to meet the requirement. If a student desires to transfer from the First-Level Program to another college, he should consult immediately with the Registrar about college policy regarding credit distribution and his expected continuation in the Core Program.

Freshmen who anticipate majoring in a department which grants the Bachelor of Arts degree should be cognizant of the required 12 credit hours of one foreign language. The language requirement is in addition to the general requirements met by the 36 credits for the First-Level Core Program. Students who are admitted to and successfully complete 6 credits in a third-year language course, however, meet the requirements for a Bachelor of Arts degree.

The 24 elective credits permit students to explore subjects of personal and professional interest. First-Level students normally elect 100 and 200-level courses. With the permission of the department offering the course, they may include Second-Level courses as a part of the 24 elective credits taken during their first and second years. A list of electives will be available at the time of registration.

The pattern of credit distribution for the freshman and sophomore years is identical:

Interdisciplinary Program		*Elective Areas*	
Term I	9	Term I	3
Term IA	0	Term IA	6
Term II	9	Term II	3
	18		12

WORKSHOPS

In addition to the interdisciplinary program, a variety of non-credit educational activities is available to the student as an educational supplement: basic skill laboratories, creative and performing arts studios, interpersonal learning groups, mass communications practicums, and physical education activities. Some departments, as part of the orientation program, may also sponsor career or vocational workshops, introducing the student to the department and its programs.

TYPES OF MEETINGS

Large Group Presentation

Large group meetings of about 200 students, multi-media sessions, may take place twice a week. In group meetings the faculty, using films, slides, tapes, panels, and performances, present the topic for the week.

Unit Meeting

The unit meeting is a class of 50-75 students, bringing together two or three sections. In it the week's readings and topics are examined from many points of view and through different media. For example, one instructor may read poetry, another may lecture, a third may show slides — all in the same session — each one speaking to the issue from his respective discipline and personal point of view.

Section Meeting

The section — twenty-five students — meets several times a week. The section teacher is also advisor to each of the twenty-five section students. In class, students study the basic skills of thinking, speaking, writing, listening, and seeing. Exercises and assignments in these skills are based on topics and material from larger classes. Student participation in section meetings is essential.

Arranged Meeting

In addition to the kinds of classes described above, students may also arrange the schedule of classes to provide more or fewer unit, section, and mini-section meetings. The kind and number of meetings depend on the needs and interests of the students and are arranged by the teacher/advisor.

Teacher/Advisor Conference

Finally, students meet, one-to-one, with their teacher/advisor to talk about their goals and the best way to reach them. With their advisor students examine their participation in the program, their mastery of basic skills, and the success of their projects. With the teacher/advisor's guidance, students learn to evaluate and criticize objectively their work in the program.

REGULATIONS

Grading and Evaluation

Because of the unified nature of the Core Program a student's teacher/advisor gives him one grade, either Pass or Fail, for the nine credits. Students receive a separate letter grade for each of their elective courses. Along with a grade for the Core Program, each student receives an *Academic Profile Sheet* in which his teacher/advisor outlines the progress he has made. The report includes comments on skills, on independent thought, on ability to design and carry out projects, on the capacity to think critically, and on mastery of the basic skills of speaking and writing.

The First-Level Program is built on the assumption that the various skills, facts, experiences, and processes which go into the Core Program should be blended into one experience for the student. Thus, the student's total performance is the subject of academic evaluation and grading. Under these circumstances the student receives one grade for the entire Core Program. The following are the grading categories.

Pass
The student has met all requirements relating to the information included in each unit and has demonstrated his abilty to communicate effectively in speaking and writing.

Fail
The student has clearly not met the requirements relating to the information included in each unit and has demonstrated a marked inability to communicate in speaking, writing, or both. In the event of receiving a failing grade in the Core Program the student, if he plans to continue at Emerson College, must at the next Summer Session take an equivalent number of academic credits and must receive a grade of C or better in such course work. As much as possible the course work must approximate that of the Core Program.

Conditional Pass
The student has managed to pass the content and skill requirements of the Core Program, but he still shows deficiency or incompetence in an aspect of the program which indicates he is a borderline case. Under these circumstances the student receives a grade of Conditional Pass. The Conditional Pass should be considered a contractual arrangement between the teacher/advisor and the student, and it is arranged in one of two ways:

a. If the student demonstrates that he has failed to meet the informational requirements of a given unit, he contracts to take a course which, as much as possible, includes similar content. This course must be taken during the following two terms. When he has completed this course with a grade of C or better, he receives a Pass for his First-Level Program work. If the student does not take the assigned course, or if his performance in such a course receives less than a C grade, then the grade of Conditional Pass becomes a Fail.

b. If a student shows a definite weakness in the area of reading skills or in the area of the communications skills of speaking or writing, he must contract to take a course or laboratory in that area during the following two terms. When the student has a recorded final grade of C or better with the Registrar or has performed satisfactorily in the laboratory, he then re-

ceives a Pass for his First-Level Program work. If the student does not take the assigned course or laboratory work, or if his performance receives less than a C grade or is unsatisfactory, then the grade of Conditional Pass becomes a Fail.

Incomplete
This grade is reserved only for those instances in which a student, for reasons of hardship, has been unable to complete his assignments during the regular calendar term. The grade of Incomplete is in effect for the following term only. After that date, the grade is recorded as F.

ACADEMIC STANDARDS OF THE FIRST-LEVEL PROGRAM

Academic Probation, Suspension, and Dismissal
The issues of probation, suspension, and dismissal in relation to the grade point average in elective courses are determined by the Academic Standards Committee. These are all-college standards and must be considered as binding. The all-college academic standards are stated in full on pages 37-38.

The academic standards that apply to the Core Program of the First Level are given below.

Probation. Probation is official notice that a student's academic performance is unsatisfactory. During the core terms, the student learns of his academic standing in the teacher-student conference. If a student fails the Core Program, he is placed on probation during the next core term. He is removed from probation when he successfully passes the next core term program.

Dismissal. A student who fails any two terms of the Core Program is subject to automatic dismissal from the College. The student, however, has the right to petition the Academic Standards Committee to review his case and to request that an exception be made to the regulation.

ACADEMIC PERFORMANCE AND ENROLLMENT IN THE SECOND-LEVEL PROGRAM

A student is not enrolled in the Second-Level Program until he has completed the Core Program of the First-Level Program with a grade of Pass. At the same time, however, a grade of Pass in the Core Program does not automatically guarantee enrollment in the field of his choice in the Second-Level Program. Enrollment in a field at the Second Level is contingent upon a departmental audition or interview or portfolio and a cumulative grade average of 1.7 (C—) or its equivalent in the student's elective courses.

COMMUNICATION DISORDERS

Dr. Klim, Chairman

The purpose of this curriculum is to provide students with a broad base of information with attention to normal aspects of the communication process and to introduce students to the theoretical information pertinent to the field. The curriculum is intended to serve as a pre-professional preparation for graduate-level study, which is recommended for majors in this field. An orderly progression of courses should be followed, and it is suggested that students should not carry more than the required number of courses in any term. Transfer students entering Emerson College must expect to enroll for an additional summer or term in order to meet degree requirements. Undergraduates are advised to become candidates for the B.S. in Speech degree; those desiring the B.A. degree should review the College course requirements for this degree.

It should be noted that in order to obtain the Certificate of Clinical Competence and membership in the American Speech and Hearing Association an applicant must have a master's degree or equivalent with a major emphasis in Speech Pathology or Audiology.

CD 301 **Speech and Language Development**
3 credits

A study of language acquisition in children, which includes phonological, morphological, semantic and syntactic development.

CD 303 **Communication (Speech and Hearing) Science**
3 credits

A study of the physiological mechanism in normal speech sounds, their acoustic properties as systems of human communication, and the instrumentation available for measuring these attributes.

CD 311 **I, Principles of Learning in Communication Disorders**
3 credits

Study of basic principles of learning in communication disorders as background for CD 312.

CD 312 **II, Disorders of Communication**
3 credits

Introduction to various disorder types, study of principles of diagnostic and clinical procedures, opportunities for observation of therapy sessions. *Prerequisite: CD 311.*

CD 367 **Principles and Procedures in Audiology**
3 credits

Detailed anatomy of the ear; current medical and surgical correction of hearing loss; pure tone audiometry and audiogram interpretation essential to hearing testing; survey of rehabilitation procedures.

CD 410 **Sociolinguistics**
3 credits

Study of language as it relates to social stratification, ethnicity and circumstances of speech situations. Discussion to cover minority group speech, standardization and attitudes and their implications for second-language instruction.

CD 421 **Bases of Therapy Process**
3 credits

Study of diagnostic and therapy process with emphasis on articulation disorders. Case presentations and observations of clinical cases. *Prerequisite: CD 311, 312.*

CD 438 **Hearing Problems in Children**
3 credits

Differential diagnosis of the non-verbal child. Interview techniques and history taking. Special techniques for audiological evaluation of the non-verbal pre-school child and parent-counseling techniques. Suggest this course be taken for graduate credit. *Prerequisite: CD 367.*

CD 442 **Dynamics of Retardation**
3 credits

Study of problems of retardation, roles of disciplines concerned with the retarded. Communication problems involved. Site visits to Eunice Kennedy Shriver Center, with observations. For majors in the department.

CD 459 **Methods in Aural Rehabilitation**
3 credits

Instruction in the theory and application of techniques for rehabilitating the hearing-handicapped child and adult. Clinical demonstrations of procedures. *Prerequisite: CD 367.*

CD 477 **Organization and Procedures in the Public School and Community**
3 credits

Methods in the organization and administration of public-school speech and hearing therapy programs; coordination with the classroom teacher; procedures relative to referral of public-school students to available community centers for consultation. *Prerequisite: CD 311, 312.*

CD 490 **Honors Study in Communication Disorders**
3 credits

CD 495 **Speech and Hearing Laboratory**
1 to 6 credits

Laboratory or combined lecture-laboratory in department center, public schools, or related centers. Taken in junior or senior year as consonant with educational background of student.

NOTE: For detailed descriptions of the 500-level courses listed below, refer to the Graduate Division Catalogue.

CD 501 **A Compendium of Speech and Hearing, I**
3 credits

CD 509 **Research Methods in Communication Disorders**
3 credits

CD 511 **Diagnostic Procedures**
3 credits

CD 515 **Behavior Modification in Speech and Language Therapy**
3 credits

CD 517 **Stuttering Workshop**
3 credits

CD 555 **Specialized Research in Thesis in Speech Pathology and/or Audiology**
3 or 6 credits

CD 577 **Voice Disorders**
3 credits

CD 581 **Seminar in Audiology**
3 credits

CD 583 **Neuroanatomy and Neurophysiologic Bases of Communication**
3 credits

CD 585 **Cranio-Facial Malformations: Cause and Treatment**
3 credits

CD 586 **Language Disturbances in Children**
3 credits

CD 590 **Seminar in Aphasia**
3 credits

CD 591 **Communication Science**
3 credits

CD 593 **Clinical Practice in Speech Pathology and Audiology**
3 credits

CD 595 **Statistical Procedures in Speech and Hearing**
3 credits

CD 596 **Advanced Clinical Procedures in Audiology**
3 credits

CD 597 **Directed Readings in Speech Pathology**

General Theatre
30 credits: Six credits in acting, DA 203-204. Six credits from DA 208, 210, 212, 215, 305, 307, 311. Six credits in Theatre history, DA 331-340. Three credits in either Voice or Movement. Three credits each in DA 101 and DA 107. Three credits in DA 320, *or* an additional three credits in either Theatre history, DA 331-350, or in one of the design offerings.

The satisfactory completion of crew assignments which can be met by the completion of DA 107. All Dramatic Arts majors are required to work on the various crews (scene construction, lighting, costume, etc.) involved in departmental productions.

Students in Dramatic Arts will be expected to take 6 credits during Term IA in consultation with their advisor. The credits may be taken in the Department of Dramatic Arts, but that is not a requirement.

DA 101 **Introduction to Theatre Arts**
3 credits

This is a course for freshmen, an introduction to the theatre as it has existed in major periods throughout history. Emphasis on the Greek, Shakespearean, *commedia dell'arte,* and other forms that have been influential in creating our present-day theatre. The course meets three times a week, once for lecture, limited to eighty students, and twice for discussion, in four groups of twenty students each.

DA 107 **Stagecraft**
3 credits

A study of the methods, materials, and equipment used in con-

structing and assembling stage machinery and of the techniques employed in rigging and shifting scenery. Three class hours plus laboratory sessions in scene crews for College productions.

DA 203 **Fundamentals of Acting**
3 credits

A laboratory course designed to give the student the basic techniques needed by the actor. Exercises for freeing the body and for increasing the development of the powers of observation, concentration, sense memory, and imagination; the endeavor; improvisations. Each student presents selected scenes before the class for criticism. *Prerequisite: audition.*

DA 204 **Fundamentals of Acting**
3 credits

Continuation of DA 203.

DA 208 **Ornament and Pattern in Stage Design**
3 credits

An historical study in styles of architecture and ornament, definition of space, and color and texture perspective on stage will lead to experimental studio work on repeat pattern development (fabric and surfaces) and to studies of techniques for developing relief effects on scenic units in a variety of media. Projects required.

DA 210 **Theory and Practice of Stage Lighting**
3 credits
A study of the basic principles of lighting design for the stage. Visibility, composition, mood, the mechanics of lighting instruments, lighting control, and color media; the techniques of drawing up lighting plots, schedules, and cue sheets. Three class hours plus laboratory sessions on lighting crews for College productions.

DA 212 **Graphic Technique for Stage Design**
3 credits

A study in the stage-oriented elements of graphic language, including color rendering (gouache and pastel) of objects under light and in space, costume sketch techniques, collage development, and informal designer's perspective. Projects and construction of stage models required.

DA 215 **Theatrical Drafting**
3 credits

A comprehensive study of all aspects of drafting related to the production of stage scenery. After a brief survey of tools and materials, the course of study will cover strict mechanical perspective, development of elevations, construction drawings, multi-view projections, axiomatics and isometric perspective, sectional views, technical sketching and shape description, etc. Problems and projects.

DA 303 **Intermediate Acting**
3 credits

An intermediate course in acting in which the actor is confronted with plays, and therefore attention is focused on scene work and structure of drama. Though material is drawn from all periods, emphasis is on modern drama. *Prerequisite: audition.*

DA 304 **Intermediate Acting**
3 credits

Continuation of DA 303.

DA 305 **Scenic Design I**
3 credits

An historical survey of scenography from antiquity until modern times, together with an introduction to the practical problems of scene design. Design projects and laboratory sessions. *Prerequisites: DA 208, 212, 215.*

DA 306 **Scenic Design I**
3 credits

Continuation of DA 305.

†DA 307 **Problems of Technical Production**
3 credits

Engineering problems in the theatre. A study of new materials employed for scene construction, cost estimates, and such mechanical problems as flying units, turntables, and traps. *Prerequisites: DA 107, 215.*

DA 310 **Stage Lighting II**
3 credits

Stage lighting for the advanced student. Design projects required. Three class hours plus laboratory sessions on lighting crews for College productions. *Prerequisite: DA 210.*

DA 311 **History of Costume**
3 credits

The evolution of clothing from the fig leaf to the tailored suit. Project required.

DA 312 **Costume Design I**
3 credits

Continuation of DA 311. *Prerequisite: permission of instructor.*

† *denotes offered as needed.*

DA 314 **Dramatic Theory and Criticism**
3 credits
An historical survey of dramatic theory and criticism from antiquity until modern times. A study of dramatic modes, critical concepts, and schools of criticism from Aristotle to Ionesco. *Prerequisite: permission of instructor.*

DA 315 **History of the American Theatre I**
3 credits
An historical survey of the development of the American drama and theatre from its beginnings to the present, with a critical study of representative playwrights from Thomas Godfrey to Eugene O'Neill.

DA 316 **History of American Theatre II**
3 credits
American drama from Eugene O'Neill to the present.

DA 317 **Mime**
3 credits
Movement for the actor; physical training to enable the body to fulfill any artistic demands; non-verbal communication and sensitivity exercises; classic mime technique; individualistic and group improvisation.

DA 318 **Mime**
3 credits
Continuation of DA 317. Study of myths and archtypes. Emphasis on creative work.

DA 320 **Introduction to Play Directing**
3 credits
A study of directorial problems in script analysis, conventions of staging, and production planning. *Prerequisites: juniors and seniors only, and by permission of instructor.*

DA 331-350 **Seminars in Theatre History**
3 credits
These are small, intensive, seminar-type courses (limited to twenty students per term) in different periods in theatre history, such as: Ibsen; Expressionism to Social Realism; Moliere and *commedia dell 'arte;* the Abbey Theatre; Shakespeare and His Contemporaries; the Greek Dramatists; and Stanislavski. Particular listings will appear in each term schedule.

DA 403 **Advanced Acting**
3 credits
Actors deal with specific problems encountered in material outside the normal body of modern realistic drama. Plays range from classic to avant-garde. *Prerequisite: audition.*

† *denotes offered as needed.*

DA 404 **Advanced Acting**
3 credits

Continuation of DA 403. Students enrolled in this course must audit (tuition free) DA 420.

DA 405 **Scenic Design II**
3 credits

Advanced techniques in scenic design and scene painting. Design projects and laboratory work required. *Prerequisites: DA 305, 306, or permission of instructor.*

DA 406 **Scenic Design II**
3 credits

Continuation of DA 405.

DA 408 **Independent Study**
3 credits

Individually selected research or creative projects conducted independently by students under faculty supervision. Enrollment limited. *Prerequisite: permission of instructor.*

DA 409 **Directed Study**
3 credits

DA 411 **Costume Design**
3 credits

A study in basic design and its relationship to clothing. Three class hours plus laboratory session on costume crews of College productions.

DA 412 **Costume Design**
3 credits

A practical study in the building of costume accessories and costume props, with emphasis on their relationship to the total design. *Prerequisite: permission of instructor.*

†**DA 413** **Senior Seminar in Theatre Arts**
3 credits

A research seminar for the advanced student, dealing with a particular period of theatre history, school of dramaturgy, or theatre movement.

DA 417 **Mime**
3 credits

Continuation of DA 317 and 318. Emphasis on improvisation and creative work. *Prerequisite: DA 317 or DA 318 or permission of instructor.*

DA 418 **Mime**
3 credits

Continuation of DA 417. *Same prerequisites.*

DA 419 **Theory and Practice of Play Directing**
3 credits

A study of the basic theories and techniques of play directing. Students direct selected scenes for class presentation. Production book required. *Prerequisite: permission of instructor.*

DA 420 **Theory and Practice of Play Directing**
3 credits

Continuation of DA 419. *Prerequisite: permission of instructor.*

NOTE: For detailed descriptions of the 500-level courses listed below, refer to the Graduate Division Catalogue.

DA 501-502 **Seminar in Playwriting**
3 credits

EDUCATION

Dr. Amato, Chairman

Requirements for Major

B.S. in Speech, B.A.: Specific requirements, complete information of teacher-education programs, and entrance application may be obtained from the Department of Education. Application for admittance into a program must be submitted during the final term of the First-Level Program.

Elementary Education

The Department of Education offers both a Bachelor of Science in Speech (B.S. in Speech) and a Bachelor of Arts (B.A.) degree with a major in Elementary Education. In addition to a general major in elementary education, the department, in cooperation with other departments of the college, offers several programs that include an area of concentration within the major. However, all programs provide the opportunity for the student to prepare for teaching on the elementary school level and meet teacher-certification requirements in Massachusetts. A student qualifying for Massachusetts may apply for reciprocal certification in other New England states and in New York, Maryland, New Jersey, Pennsylvania, and Delaware. Students seeking certification in other states are responsible for meeting the requirements of those states.

Philosophy: The department is philosophically committed to the notion that education is a dynamic, ever-changing process and that teacher-education programs must provide the bases for helping students prepare for teaching careers within contemporary educational systems and those of the future. The programs offered by the department attempt to meet this demand by pursuing three major objectives: (1) provide a comprehensive foundation of contemporary and future theoretical concepts and practices in elementary education; (2) offer continuous opportunities for the student to develop his/her teaching skills through field experiences; and (3) assist the student to develop an awareness of communication and its relationship to learning and the educational process.

Programs: The Department of Education offers a General Elementary Education program and several area-concentration courses of study. Each program helps the student prepare for a teaching career in elementary education. The concentrations within the major are designed to provide the student with an area of basic expertise that will enhance his potential contributions to education on the elementary level. It will also enhance his job possibilities in an ever-increasing competitive market and serve as a foundation for advanced or graduate study. *The programs begin in the junior year and entrance applications should be submitted by the student during the final term of the First-Level Program.* Shown below are the general and specific requirements of the General Elementary Education Major.

PROGRAM: General Elementary Education

DEGREE: B.S. in Speech, B.A.*

CREDIT HOURS: 120 credit-hours for degree — 60 credit-hours for program

GOALS: This program provides the opportunity for the student to develop basic skills for teaching on the elementary school level. Upon completion of his/her course of study, the student will be able to teach and develop instructional units in such areas as reading, writing, mathematics, social studies, etc. He/she will also be aware of the role of communication in the teaching-learning process and capable of translating this knowledge into an effective educational process.

**Requires 12 credit-hours of study in a foreign language or its equivalent.*

†*Course must be approved by the Department of Education. Acceptable courses include: Voice and Articulation, Public Speaking, Oral Interpretation, and Argumentation.*

The general goals of each area-concentration program within the major are listed below. The programs have several characteristics in common, including the B.S. in Speech or B.A. degree, a 60 credit-hour distribution, the same 33 hours of basic requirements in Education and the same 6 credit-hours of additional requirements. Complete information may be obtained from the Department of Education.

PROGRAM: Creative Dramatics

GOAL: This area-concentration program is designed to prepare the student to function in the elementary school both as a teacher and as a resource person in drama. Upon completion of the program, the student will be skilled in the areas of play production, creative dramatics and children's theatre. He will also be able to teach creative dramatics and produce children's plays.

PROGRAM: Speech

GOAL: Designed to prepare the student for teaching on the elementary level with an additional major skill in the speech-communication areas. Upon completion of the program, the student will be able to develop instructional units for improvement of basic speech skills, including the effective use of the voice, proper articulation, and oral interpretation of prose and poetry. The student will be able to teach children the function of the communication process in human interaction. He will also be able to serve as a speech-communication resource person for language arts programs.

Pre-Program Activities: Although major programs in elementary-teacher education do not begin until the junior year, the Department of Education provides several courses and suggested electives for students in the First-Level Program. It also maintains a very active tutoring, teacher aide, and day care center aide program in conjunction with educational and social agencies throughout the Greater Boston area. Students interested in such activities should contact the Department of Education at the beginning of each term.

Secondary Education

Although the Department of Education does not have a major in Secondary Education, it does provide programs in conjunction with other departments (English, History, Social Sciences, Speech and Communication Studies, and Theatre Education) which fulfill the requirements necessary for Massachusetts certification on the secondary-school level. Requirements for the major may be obtained from the Director of Teacher Education in the field of interest or the Chairman of the department. *Specific requirements in education may be obtained from the Department of Education.*

Students interested in teaching on the secondary-school level are urged to consult the Director of Teacher Education in their major field or the Chairman of the department and the Department of Education as early as possible—certainly before the end of their final term in the First-Level Program.

ED 171 **Introduction to Elementary Education**
3 credits

General orientation to elementary-school education. Designed to aid students in determining their interest in, and fitness for, teaching. Limited to fifteen students.

ED 201 **History of Education**
3 credits

Education theories and systems from antiquity to the present time; the principal educators of each period; great documents of educational thought; the influence of social and political conditions on education.

ED 223 **Child Growth and Development I: The Pre-School Years**
3 credits

Presentation and evaluation of the research literature on the growth and development of children from conception through the pre-school years; a psychobiological approach stressing development as the product of interaction between the biological organism and its physical, social, and psychological environment. Students are required to work six hours per week (two three-hour blocks) in a day care or child development center throughout the term.

ED 271 **Tutoring Laboratory**
3 credits

Course designed for students interested in providing community service through tutoring elementary-school children. Especially recommended to prospective elementary-school teachers. Class periods will include presentation of methods and materials appropriate for children who experience difficulty in learning.

ED 301 **Philosophy of Education**
3 credits

Systematic philosophies of education and their points of difference; present-day major issues inherent in the relationship between school and society; philosophical aspects of the theory of learning; educational values; the nature of the individual pupil.

ED 305 **Foundations of Education**
3 credits

Interdisciplinary approach to problems and issues in education. Emphasis placed on direct experience as well as theoretical in moving toward the goal of allowing the student to become better able: a) to bridge the gap between theory and practice; b) to ask the necessary kinds of questions which can lead toward solutions or resolutions of problems; c) to evaluate and justify existing educational policy and practice and proposals for changes of such; and d) to be sensitive, both in oneself and in others, to the issue of consistency between stated goals and values (preaching, ends) and those reflected in behavior (practices, means).

ED 311 **Educational Tests and Measurement Theory**
3 credits

Introduction to the general area of educational and mental measurements, including the nature of measurement, types of tests, principles of test selection, behavioral objectives, and fundamental statistics. Design and construction of teacher-made classroom tests.

ED 321 **Education for the Exceptional Child**
3 credits

A study of the problems of the non-typical school child; the use of the school and other resources in meeting his needs.

ED 323 **Child Growth and Development II: The School Years**
3 credits

Presentation and evaluation of the research literature on the growth and development of children from pre-school years through adolescence; special emphasis is given to the organization of behavior at various stages in response to physical, social, and cognitive development.

ED 331 **Teaching Reading in the Elementary School**
3 credits

An introduction to the analysis and development of basic reading skills in the first through the sixth grades. Discussion of instructional materials, diagnostic testing, and classroom planning to assure growth in basic abilities and in voluntary use of reading. Practice in developing reading skills is provided through tutoring a child for the duration of the course.

ED 333 **Reading Difficulties in the Elementary School**
3 credits

An advanced course dealing with methods of diagnosis and correction of difficulties in reading in Grades 1 through 6. Discussion of causal factors in reading difficulty, tutoring techniques, instructional materials, and planning and administering of programs for students who experience difficulty in learning to read. Practice in clinical methods of analysis of difficulty. *Prerequisite: ED 331.*

ED 335 **Teaching Elementary-School Mathematics**
3 credits

Attention given to techniques of presenting mathematical content meaningfully to elementary pupils.

ED 337 **Methods and Materials in the Elementary School**
3 credits

Fundamental methods course for elementary-school teachers. Consideration of methods of teaching based on methods of thinking and learning, discussion of content, activities, and materials in social studies, science, and language arts. Emphasis on integration of the elementary-school curriculum and providing for individual differences. Practical application through tutoring for duration of course and micro-teaching experience.

ED 338 **Curriculum Development in the Elementary School**
3 credits

A survey of the essential features of the elementary-school curriculum; the historical influences which have shaped it; problems and issues in present-day curriculum construction; the curriculum and its relationship to American society.

ED 339 **Children's Literature**
3 credits

Designed to acquaint elementary-school teachers with creative and informative forms of children's literature. Discussion of criteria for selection and varied uses of juvenile literature. Particular emphasis on improving oral interpretive skills for greater enjoyment of literature and on designing an elementary-school literature program to motivate students to read.

ED 341 **Principles of Guidance and Counseling**
3 credits

The meaning and scope of guidance services and the need for them. Principal methods involved in the following guidance areas: understanding the individual; imparting information essential in making choices and plans; counseling and adjustive services; placement; follow-up. Especial emphasis on the function of the counselor principles and attitudes applied in a number of person-to-person rela-

tionships where rapport and understanding are essential. *Prerequisite: 6 credits in psychology.*

ED 350 **Educational Media**
3 credits

An introduction to the objectives and methods of audio and visual media in education. Practice in operating basic equipment, including slides, filmstrips, and overhead, opaque, and motion-picture projectors. Some basic production of materials. Laboratory assignments. Limited to twenty students.

ED 351 **Instructional Materials Production**
3 credits

Designed to equip prospective teachers with basic principles and techniques of preparing instructional materials. Production projects include slides, tapes, overhead transparencies, programmed instructional packages, and multi-media programs. Limited to fifteen students. *Prerequisite: ED 350.*

ED 361 **Methods and Materials in Secondary School History**
3 credits

A study of the problems, methods, and materials in the teaching of voice, interpretation, and speech in the secondary school. Analysis and construction of courses of study. Evaluation of textbooks and other reading material. Consideration of methods of classroom procedure with demonstrations of teaching methods. *Prerequisite: 12 credits in Speech and Communication Studies with an average of at least C+.*

ED 363 **Methods and Materials in Choric Speech**
3 credits

Classroom and group techniques in choric speech. Preparation of special teaching projects in such subjects as ear training (listening for speech sounds); choric speech material at various grade levels; creative dramatics; building speech improvement units around public-school classroom subjects.

ED 365 **Methods and Materials in Secondary School English**
3 credits

The problems of teaching history and related social studies, with emphasis on classroom procedure. Discussion of methods and materials.

ED 367 **Methods and Materials in Secondary School Speech**
3 credits

The problems of teaching the communication skills, with emphasis on practical classroom procedure. Materials and methods used in teaching composition, literature, vocabulary development, and remedial techniques. Course outlines, outside readings, reports, and

papers. Visiting lecturers provide the students with a rounded picture of the teaching-learning situation they will meet on the job.

ED 368 **Curriculum Development in the Secondary School**

FA 202 **History of Art II**
3 credits

A survey from early Christian through Byzantine, Romanesque, Gothic, and the Italian Renaissance. Illustrated lectures and museum tours.

FA 203 **History of Art III**
3 credits

A survey of western art from the Northern Renaissance through the Spanish and Dutch schools, the eighteenth and nineteenth centuries of the English and American schools, and from the seventeenth to the twentieth century in France.

FA 204 **Seminar in Art**
3 credits

A concentrated study in a selected area of art history. Emphasis is placed on exposition of material. Students are encouraged to create a presentation which includes visual as well as audible and written information. *May be repeated in another area for credit.*

FA 205 **Seminar in Art**
3 credits

See FA 204.

FA 206 **Contemporary Art**
3 credits

An exploration of the character of, and performance in, the plastic arts in the twentieth century, with emphasis on works and artists from 1945 to the present. A survey of the historical background will cover departures of nineteenth-century artists and the "isms" and inventions of those of the first half of this century. Emphasis will be placed on painting and sculpture, with some excursions into the development of the environmental arts. Projects and/or papers, and field trips to museums and galleries required.

FA 210 **History of Oriental Art**
3 credits

A survey of the painting, sculpture, architecture, and ceramics of China, India, and Japan. Illustrated lectures and museum tours.

FA 215 **Design I**
3 credits

A study aimed at the understanding of fundamental principles, with freedom from derivative influence. Two- and three-dimensional problems are presented to develop critical understanding. The course is designed to give responsibility to those involved with the construction as a visual image. Studio activity with discussions.

FA 216 **Design II**
3 credits

Continuation of FA 215, with a greater emphasis on color and space as related to environment.

FA 217 **Drawing Techniques**
3 credits

A studio course in drawing, with emphasis on rendering of form and texture. A variety of techniques and tools will be used to explore problems of pictorial space, both mechanical and freehand. Students will be expected to provide the proper materials and equipment. Two regular periods and Friday afternoon workshop. By special arrangement a student may omit the Friday workshop and substitute one period of figure drawing at the Museum School. Twelve-week term (II).

FA 220 **Experimental Television Seminar**
3 credits

Taught jointly by members of the faculty of the Museum School and Emerson College. Open to a limited number of students from both institutions.

FA 221 **Seminar in Ancient Greece (Attic Vase Painting)**
3 credits

Prerequisite: permission of instructor.

FA 230 **The Artist and the Making of Meaning**
3 credits

Do you capitalize the A in art? Is art act or fact; fluid or static; the artist, or his work? How can the experience and understanding of the arts be communicated? A study in the continuum of the artist and the nature of the arts. Lecture, presentation, films, field work, readings, guest speakers, and practicum.

FA 231 **The Poetic Eye**
3 credits

An exploration of the visual implications of twentieth-century poetry. Discussions will avoid formal analysis, stressing instead the importance of establishing and recognizing an intuitive and highly personal relationship with the work; students will then be expected

to illustrate that relationship photographically. Technical/conceptual problems arising in the attempt will be dealt with individually and in class meetings. Photographic experimentation will be encouraged and guided. The goal of the course will lie beyond photo-illustration at a level where the photography becomes the expression of the student's own reactions to and interpretations of the poetry. Each student will produce finished, multi-photograph presentations on poetry from a recommended list or on approved works of his own choice. Professional standards stressed throughout. To be coordinated with EN 222. *Prerequisites: FA 322 or equivalent; permission of instructor.*

FA 232 **Photosymbolism**
3 credits

An examination of the objective-subjective conflicts inherent in the presentation of visual ideas. Each student will complete a photo-essay and journal to explore problems of visual symbolism, individual style, and unity of concept. Technical demonstrations, films, readings, and appropriate historical references will be drawn upon in class. *Prerequisites: FA 322; permission of instructor.*

FA 321 **Photography I**
3 credits

An introduction to the basics of photography, which includes criticism of final works produced. Emphasis is placed on darkroom procedures, from development of film to the finished print. The student must have at his disposal a camera with adjustable speed and lens opening.

FA 322 **Photography II**
3 credits

Continuation of FA 321. Problems assigned require greater attention to design, both in shooting and enlarging in the darkroom. *Prerequisite: FA 321 or equivalent.*

FA 323 **Seminar Workshop in Synchronized Slide Presentations**
3 credits

Students will create slides from a variety of opaque and transparent materials of many textures and colors for presentation in sequence and/or simultaneous projection. Emphasis will be placed on design of the individual images and their interplay in sequence synchronized with appropriate and original sound sources. Emotional and thematic ideas will be explored, but criticism during production and on final projects will stress technique and design.

FA 324 **Photography III**
3 credits

Emphasis on developing a professional approach to the medium

and to the process of art. Individualized development of technical and aesthetic concepts introduced in previous courses. Directed work in large-format and color photography, controlled lighting, photo-essay, and visual symbolism. Trip to George Eastman House (Rochester, N.Y.). Each student will be responsible for exhibiting his work at the College by the end of the term. *Prerequisites: FA 322; permission of instructor.*

FA 336 **Survey of Greek and Roman Culture**
6 credits (with EN 336)

See EN 336.

FA 350 **Museum School**

Emerson College and The School of the Museum of Fine Arts have developed a cooperative program to provide an opportunity for students to use the specialized training offered by each school. Studio courses including painting, drawing, sculpture, and photo-silk-screen are available to qualified Emerson students. For more information, see the Chairman of the Department.

The seminar will study stated topics, varied from term to term. Study of recent research, media literature, and current media status.

MC 424 **Media Studies**
3 credits

The evaluation and use of media-market measurements and data. Interaction of the media. Development of the advertising campaign.

MC 429 **Writing for Public Relations**
3 credits

The application of public relations principles to news releases, features, and promotion copy. Fundamentals of writing for public relations.

MC 431 **Honors in Mass Communications**
3 credits

A special program under individual faculty guidance. Senior level. May be developed across course lines. Admission subject to departmental approval.

NOTE: For detailed descriptions of the 500-level courses listed below, refer to the Graduate Division Catalogue.

MC 502 **Audience Analysis**
3 credits

MC 513 **Mass Communications and Society**
3 credits

MC 557 **Media Research in Thesis**
3 or 6 credits

BROADCASTING

MC 104 **Broadcasting Operations**
3 credits

Operation of broadcasting facilities: studio and control rooms. Three hours of lecture and 1½ hours of laboratory per week. Additional crew hours assigned.

MC 110 **Performance I**
3 credits

The application of principles of broadcasting news, interviews, announcements, and special events. Lecture and laboratory.

MC 201 **Broadcasting Journalism I**
3 credits

An evaluation of broadcasting as a medium for the dissemination of news. Preparation of news copy. Broadcasting law as it applies to news.

MC 204 **Broadcasting Writing**
3 credits

Study and practice in the techniques of writing public service and commercial continuity for broadcasting. Special projects. Writing of dramatic and comedy material.

MC 306 **Sales in Broadcasting**
3 credits

The philosophy and techniques of personal selling, including an investigation of managerial policies in sales administration. Sales methods in broadcasting. *Prerequisites: MC 203.*

MC 307 **Television Production**
3 credits

Orientation to television production. Development of programs. Special projects. Additional crew hours assigned. *Prerequisite: MC 104.*

MC 325 **WERS Laboratory**
1 credit per semester

Staff assignments to the College radio station, WERS. Credits, without tuition charge, assigned upon the faculty manager's

recommendation, based on performance for the year. May be repeated in successive years. Three credits only applicable toward degree. Not applicable to Mass Communications major. *Prerequisites: audition; permission of faculty manager.*

MC 339 **Introduction to Management**
3 credits

Managing the broadcasting station. Personnel, social, and governmental responsibilities; inter-media relationships.

MC 340 **Broadcasting Journalism II**
3 credits

Developing the documentary. The interpretation of contemporary affairs.

MC 425R **Radio Practicum**
3 credits

Practical experience through assignment to a position on the staff of WERS—FM. *Prerequisites: 21 credits of Mass Communications; permission of faculty.*

MC 425T **Television Practicum**
3 credits

Advanced training in television production. Special projects and problems selected by the class and instructor. *Prerequisites: 21 credits of Mass Communications; permission of faculty; and MC 307.*

MC 431T **Honors in Television**
3 credits

Concentrated production experience, with detailed analysis of several network shows from concept through all production problems to air. Concurrently each student conceives a show idea and carries it through the problems of production to air.

MC 438 **Public Affairs Broadcasting**
3 credits

Reporting of governmental activities. Emphasis on detailed reporting of important events. Planning and reporting of special events. *Prerequisite: MC 201.*

MC 440 **Accounting Processes**
3 credits

Accounting processes as applicable to broadcasting management. Accounting theory, preparation and analysis of financial statements, taxes, budgeting. *Prerequisite: MC 339.*

NOTE: For a detailed description of the 500-level course listed below, refer to the Graduate Division Catalogue.

MC 514 **Educational Uses of Radio and Television**
3 credits

JOURNALISM

MC 106 **News Reporting**
3 credits

Fundamentals and techniques of preparing news copy in the print media including exercises in composition and continuity. Extensive writing.

MC 205 **Feature Writing**
3 credits

A study of background and human-interest writing, as distinguished from the news story, in the print media. Extensive writing.

MC 206 **News Editing**
3 credits

Copy desk operations, including editing, head writing, make-up, special article writing. *Prerequisite: MC 106.*

MC 305 **Photojournalism**
3 credits

Basic news photography, with emphasis on picture content and story-telling. Lecture and laboratory course. *Prerequisite: FA 321.*

MC 300 **Photojournalism II**
3 credits

An aesthetic and technical furthering of journalistic photography. Lecture and laboratory. *Prerequisite: MC 305.*

MC 404 **Critical writing**
3 credits

The study and writing of reviews in drama, film, literature, art, music, and television. Extensive writing.

MC 425J **Journalism Practicum**
3 credits

Practical experience in writing, editing, layout, and design for publication. *Prerequisites: 21 credits of Mass Communications; permission of faculty.*

MC 447 **Graphic Arts**
3 credits

The origin and development of various uses of engraving and printing. Introduction to color reproduction. Type design and recognition. Copy-fitting and layout fundamentals.

FILM

NOTE: *All necessary equipment is furnished for student use in film production courses; however, students taking MC 207 should expect to spend approximately $20, and those taking MC 343 and 344, approximately $60 for each course, for film stock and processing.*

MC 114 **Introduction to Film**
3 credits

General introduction to the medium. Investigation of film forms, with emphasis on values, techniques, and stylistic approaches. Film as art, communication, experiment, document, propaganda, and entertainment. Lectures and screenings.

MC 207 **Film Basics**
3 credits

Introduction to basic motion picture theory and techniques. Relationship of idea to film image, exercises in composition and continuity. Individual production experience with use of Super 8mm. equipment.

MC 240 **Film Analysis**
3 credits

Continuation of MC 207. Analysis of the film form. Relationship of image to intention and structure; exercises in direction and editing. Individual production activities with use of Super 8mm. equipment. *Prerequisite: MC 207.*

MC 343 **Film Production I**
3 credits

Intensive 16mm. motion picture production experience. Principles of black-and-white cinematography; camera, lens, and lighting techniques. Individual projects. *Prerequisite: MC 207 or equivalent. For majors only.*

MC 344 **Film Production II**
3 credits

Continuation of MC 343. Use of sound in film; visual and sound relationships. Principles of color cinematography. Advanced production and editing techniques. Crew projects. *Prerequisite: MC 343. For majors only.*

MC 346 **Film Composition**
3 credits

Writing for motion pictures. Translation of idea into filmic design, with consideration of compositional elements. Treatments, scripting, and complete pre-production planning. *Prerequisite: MC 207. For majors only.*

MC 421 **Film Seminar**
3 credits

Examination of recent research, literature, and contemporary activities in the film media. Open to senior majors only.

MC 425FA **Dramatic Workshop**
3 credits

Practicum. Preproduction preparation for dramatic filmmaking, including analysis of crew assignments, scripting, budgeting, location survey, talent auditions, and rehearsals. Students work as members of a dramatic production company. *Prerequisite: MC 343—344.*

MC 426FA **Dramatic Practicum**
3 credits

Practicum; continuation of MC 425FA. Training in dramatic film production. Completion of film through shooting and editing, with preparation for printing. *Prerequisite: MC 425FA.*

MC 425FB **Newsfilm Production**
3 credits

Practicum. Training in single system, sound-on-film techniques, with emphasis on film production for television. Students work in small crews with regular news and public affairs filming assignments. *Prerequisite: MC 343—344.*

MC 426FB **Documentary Practicum**
3 credits

Practicum; continuation of MC 425FB. Advanced training in documentary film production. Students work in crews. *Prerequiste: MC 425FB.*

MC 425FC **Animation Design**
3 credits

Practicum. Design techniques for animation production. Preparation of materials from idea through to camera-ready artwork. Training in use of animation camera and stand. Small group projects. *Prerequisite: MC 343—344.*

MC 426FC **Animation Practicum**
3 credits

Practicum; continuation of MC 425FC. Animation production: kinestatics, pictographics, pixillation, time-lapse, limited and full cel, flat figure and silhouette, painting on film. Individual and group projects. *Prerequisite: MC 425FC.*

MC 431F **Honors in Film**
3 credits

Individual or group projects under directed study. May involve production, writing, research, or some other area of

activity appropriate to film. Registration to be in second term for formal credit; actual student work may occur throughout the year. *Prerequisites: permission of faculty; careful review of past performance.*

MC 435 **Film History**
3 credits

An examination of the history of the motion picture, and its relationship to the evolution of film theory, criticism, and aesthetics. Intensive analysis of the film as a medium from the perspective of its achievements and failures to date. Lectures, screenings, and research activities. *Open to non-majors, with admission by consent only.*

MATHEMATICS

Mr. Arnold, Acting Chairman

MA 101 **Basic Mathematical Analysis**
3 credits

The historical origins of number systems. Fundamental concepts of algebra and geometry; axioms, postulates, constant and variable, function notation. Elementary operations, factors, groups, fractions, formulas, equations, inequalities. Quadratic and higher degree equations, simultaneous equations, exponential and logarithmic equations. Basic trigonometry, including identities, trigonometric equations, addition, double-angle and half-angle formulas, laws of sines, cosines, tangents. Graphs and introductory rectangular coordinates.

MA 102 **Mathematical Analysis II**
3 credits

The elements of symbolic logic. Elementary analytic geometry. Introduction to functions, rates, differentiation, maxima and minima, related rate problems. Integration, indefinite integral, definite integral applied to area, pressure, work, volume problems.

MA 103 **Statistics**
3 credits

An introduction to statistics, including frequency distributions, problems of data collection, measures of dispersion, moments, index numbers, correlation, properties of normal distribution curve, and elementary probability theory, with applications to psychometric, sociological, and educational statistical problems.

MA 104 **Finite Mathematics**
3 credits

An introduction to modern mathematics, communication by translation of symbols. Compound statement theory, connectives, truth tables, tree diagrams. Sets, subsets, binary numbers. Partitions, permutations, probability, finite stochastic processes, Markov chains. Vectors, matrices, introductory linear programming, elementary game theory.

MA 105 **Probability**
3 credits

The historical development and social uses of probability mathematics. Selected topics from set theory and use of factorials, combinations, permutations, and tree diagrams. Also, repeated trials, distribution procedures, Markov chains.

MA 106 **Modern Mathematics**
3 credits

Mathematics, a language of communication. Selected topics from history of mathematics, number theory, logic, sets, geometry and measurement, use of graphs, methods of problem-solving, and elementary teaching methods.

MUSIC

Mr. Pettitt, Chairman

MU 101 **Chorus**
3 credits

The chorus, selected after audition with the director, rehearses regularly and sings at all chapel services and other official College functions. A wide range of choral literature is covered. Credits, without tuition charge, are assigned upon the director's recommendation, based on attendance and performance for the entire year. (May be repeated in successive years.)

MU 103 **Practical Beginning Theory**
3 credits

A course designed to develop basic music skills. Rhythm, melody, and harmony are studied through reading and written assignments, ear training and sight singing (solfege) exercises, and elementary work in keyboard harmony. Requires no previous background in music.

MU 104 **Basic Musicianship**

SCIENCE

Dr. Pierce, Acting Chairman

SC 101—102, SC 103—104, and SC 141—142 are part of the course-exchange program with Suffolk University. Lectures, given by Suffolk faculty members, are held at Emerson; laboratories, at Suffolk.

The laboratory program is a requirement for Bachelor of Arts degree candidates of the Class of 1973 and prior classes only.

SC 202 and SC 205 are non-laboratory courses given by Emerson faculty members. Both are held in accord with the Emerson calendar.

Students taking SO 209, Principles of Ecology, may be granted three credits of non-laboratory science with the permission of the instructor.

SC 101 **Introduction to Physical Science**
3 or 4 credits

An introduction to the field of physical science which approaches the subject from several directions. The first approach treats the recurrence of certain simple organizing ideas throughout the development of science, carrying this treatment into the most advanced fields of current investigation. The second approach concentrates on achieving an exact understanding of limited fields of physical science, developing on the way the simple mathematical skills required. A third approach treats the application of science to technology in a field of interest to students, for example, acoustics. Throughout the course, the aim is to enable the student to develop enough knowledge to allow him to compare the ideas and techniques of the scientist with those of his own profession. A laboratory program is available.

SC 102 **Introduction to Physical Science**
3 or 4 credits

Continuation of SC 101.

SC 103 **The Living World and Man**
3 or 4 credits

An introduction to the basic principles of the structure, function, development, and interrelationships of living organisms, with man as the focal point. A brief survey of the plant and animal kingdoms. Lectures and laboratory.

SC 104 **The Living World and Man**
3 or 4 credits

Continuation of SC 103.

SC 141 **Man in Nature**
3 or 4 credits

The first semester considers the biology of man from the cell to the organismic level. The second semester continues with a consideration of the metabolic interrelationships of man to other biological systems, involving disease, parasitism, pollution, and other problems of survival.

SC 142 **Man in Nature**
3 or 4 credits

Continuation of SC 141.

SC 202 **The Human Body: Its Basic Structure and Function**
3 credits

An approach to understanding the human body as a self-regulating machine for living and doing.

SC 205 **Biology and the Future of Man: Can Man Survive?**
3 credits

An approach to understanding biological systems through study of a particular topic such as human population growth, human reproduction, variation in populations, natural selection and man's evolution, or other areas of particular importance. Emphasis on solving problems through the methods of science and on the use of scientific literature. Examination of science as a creative process. Readings will include material from such works as Handler's *Biology and the Future of Man;* Hardin's *Nature and Man's Fate; Science and Controversy—Population—a case study; Population, Evolution, and Birth Control;* and selected readings in science fiction. Outside speakers and films. Term paper required.

SOCIAL SCIENCES

Dr. Ursul, Chairman

SO 201 **Principles of Economics**
3 credits

A survey of the basic concepts of economics, with special reference to the process involved in contemporary problems by which the individual American citizen forms and evaluates his economic attitudes.

SO 202 **Anthropology**
3 credits

A study of human origins and development. Types of cultures and societies; human evolution and social organization.

SO 203 **Principles of Sociology**
3 credits

A study of culture, society, and man which stresses acquaintance with sociological and anthropological concepts and terms.

SO 205 **Principles of Geography**
3 credits

An introduction to the manner in which human activities have altered the natural environment. Geographical study of the physical, cultural, and economic aspects of various regions.

SO 207 **Political Thinking**
3 credits

Theories as to the nature and functions of political power and institutions from Plato's time to the present. The relation of political theory to philosophy, religion, jurisprudence, ethics, and economic trends.

SO 209 **Principles of Ecology**
3 credits

A study of the interaction of populations and their relationships with their environment. Examination of the patterns of competition and cooperation in communities, and the concepts of succession and climax in natural ecosystems. NOTE: Three credits of science (non-laboratory) may be granted for this course with the permission of the instructor.

SO 212 **American Government and Politics**
3 credits

The American political system, including national, state, and local governments: constitutional foundation, citizenship, civil liberties, public opinion, political parties, the electoral system, and the legislative process.

SO 220 **International Politics**
3 credits

A lecture-discussion course on the nature, techniques, and problems of interaction among states. Emphasis is given to the development of the modern state system, power factors, nationalism, and imperialism; to the alliances and collective security; and to the role of law, morality, and international organizations. Examples of national styles in statecraft will be analyzed, with a focus on the United States and Afro-Asian violence.

An analysis of and participation in community projects, drug rehabilitation, tutorial assistance, runaways, youth clubs, etc.

SO 333 **Sociological Theory**
3 credits

An investigation and evaluation of American and continental social theorists such as Thomas, Webber, Durkheim and Pareto in order to acquire an adequate background for social sciences.

SO 336 **Social Problems**
3 credits

An analysis of selected problems of contemporary social life: drugs, alcoholism, poverty, delinquency, etc.

SO 337 **The Family**
3 credits

A study of contemporary dynamics in domestic relations, covering the development of courtship, marriage, family, and child rearing.

SO 338 **Seminar Project in Sociology**
3 credits

Application of behavioral science and research techniques to individually selected field projects with group guidance.

SO 340 **Communities and Race Relations**
3 credits

Racial and group tensions and aggressions. The pattern of group living contrasted with the development of and reasons for prejudice.

SO 341 **Organizational Systems**
3 credits

Theories of organizational behavior including systems analysis, bureaucratic models, and psycho-social approaches, with emphasis on the role of change agent.

SO 342 **Group and Interpersonal Relations**
3 credits

An introduction to sensitivity training. *Prerequisite: permission of instructor.*

SO 495 **Seminar and Directed Reading**
3 credits

Special topics in sociology and urban studies. May be repeated for credit. *Prerequisite: permission of instructor.*

SPEECH AND COMMUNICATION STUDIES

Dr. Zacharis, Chairman

Required for Major

(B.A. or B.S. in Speech): 36 to 42 credits, in one of the following concentrations: Business and Industrial Communications, Communication Theory and Methodology, Oral Interpretation, Political and Judicial Communications, Rhetoric and Public Address, Speech Education (Elementary), and Speech Education (Secondary). Declaration of major and concentration is to be made upon entering the junior year. Requirements for each concentration are available through the department.

SP 101 **Phonetics**
3 credits

A study of the production of speech sounds in the English language. Study and practice in the use of General American phonetic symbols. Practice in phonetic and allophonic transcription. Introduction to the mechanics of voice production.

†SP 104 **Voice and Articulation**
3 credits

Designed to develop in the student's voice a wide range of controls in pitch, volume, and quality to meet the voice and speech needs of courses in broadcasting, interpretation, platform art, public speaking, teaching, and theatre. Eradication of individual faults and control of regional accents. Study of acceptable American pronunciations.

†SP 201 **Fundamentals of Oral Interpretation**
3 credits

Principles of oral interpretation as formulated in the philosophy of Charles Wesley Emerson, founder of Emerson College. Aimed toward an ordered development of the expressive powers of the student through practice in the oral interpretation of literature. Analyzing an author's meaning, responding to it, and communicating that meaning to an audience. Correlation of oral interpretation with other arts. Attendance required at selected convocations.

SP 201 **Fundamentals of Oral Interpretation: Black Literature**
3 credits

Same as SP 201, with special emphasis on black prose and poetry.

†SP 202 **Advanced Oral Interpretation**
3 credits

Further development of the Emerson philosophy of expression as outlined in SP 201, through the oral interpretation of various types of literature: poetry, prose, drama. Introduction to platform art. Students present short programs. *Prerequisite: SP 201 or equivalent.*

†SP 208 **Public Speaking**
3 credits

Development of assurance in public appearance through impromptu and extemporaneous speaking. Emphasis upon audience analysis, rhetorical structure, and performance.

SP 209 **Choric Speech Production**
3 or 6 credits

The elements of choric speech offered in a workship situation, with the intent of producing one major recital at the end of the term.

SP 210 **Forensic Workshop I**
3 credits

In-depth research and participation in intercollegiate debate and/or competitive individual events. Primarily designed for novice debaters.

SP 217 **Audio-Visual Aids in Business and Industrial Communications**
3 credits

An overview and specific application of the technologies of communication as they apply to industrial and professional communication. Students will be exposed to basic photography, the variety and use of equipment, presentation systems, and contemporary trends in audio and visual methodology.

INTERDISCIPLINARY CONCENTRATIONS offered in 1972-1973 as of May, 1972

AMERICAN STUDIES: to comprehend better the American mind and life patterns through the study of American art, history, literature, and modes of communication. Special emphasis may be placed on Black Studies.

VISUAL DESIGN IN THE COMMUNICATION ARTS: to develop a skill (or skills related to one another) in Visual Design in the Communication Arts with the use of related areas and electives to enrich the chosen direction.

COMMUNICATION AND PHILOSOPHY: to study philosophical systems in an attempt to define the abstractions by which man determines behavior for himself. Communication theory is a study of how man extends and communicates those abstractions to influence his environment and the behavior of others. The concentration in communication and philosophy is one which provides a solid grounding in the traditional philosophical ideas necessary for the comprehension and application of modern communication ideas and techniques.

THE FINE ARTS AND THEIR RELIGIOUS ENVIRONMENT: to explore the interrelationships between artistic creativity and religious themes, to provide the student with a thorough preparation in the religious dimensions of the plastic arts, and to allow him to pursue special interests in artistic communication.

THE HUMAN SCIENCES AND PHILOSOPHY: to provide the student with a program that explores the interrelationship between human behavior and philosophical understanding and to provide the groundwork for graduate work in one or more of the involved disciplines.
